EVANS' PERFECT DICE

PERFECT Cubes, PERFECT Spots, PERFECT Balance, Evans' Perfect Dice are made of the toughest, longest wearing non-camphor material obtainable; thoroughly seasoned and treated for long, hard service.

Evans' Perfect Dice will not shrink, warp or chip and will stand all known tests for accuracy such as caliper, square, straight edge, etc. All sides are perfectly FLAT, not concave or beveled in finishing and balance perfect, spots being compressed without the loss of material.

Evans' Perfect Dice come in all colors, white or transparent and the transparent dice have all the sparkle and clarity of ordinary celluloid material. Evans' Perfect Dice are warranted to give satisfaction, backed by a MONEY BACK GUARANTEE.

Evans' Perfect Dice with your initials embossed on one of the sides are supplied without extra cost. Special private monograms or trade-marks are supplied at a small extra charge for the die which becomes your property.

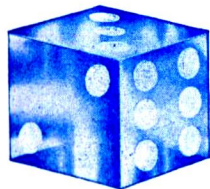

Evans' Perfect Dice are made in all sizes from 1/2 inch to 3/4 inch, square or razor edge, brush edge, light or full round edge, etc., and spots are made light, regular or deep in the standard concave spot, single or double birdseye spot, inlaid flush round spots, inlaid birdseye spots, or paint flush spot, round or birdseye.

For the Dice Man who demands a SUPER-PERFECT Dice we recommend the Inlaid Flush Spots, either round or birdseye, as these are THE ONLY DICE that will BALANCE and BALANCE PERFECT in our latest percentage detector, the Balancing Calipers listed on page 6. All other so-called PERFECT DICE will show slightly off balance, regardless of what may be claimed for them as these Calipers will show.

Evans' Perfect Dice are made with high polish, dull finish supplied without extra charge.

PERCENTAGE FOR THE BANKER

PERCENTAGE Dice to match our PERFECT DICE are a recognized necessity for any Do and Don't game and we offer several new ideas in Percentage Dice that have been thoroughly tested and proved for this special purpose. These dice assure the operator a legitimate house percentage and a satisfactory increase in the weekly take. Special combinations made to order. Do not confuse these dice with the usual strong joint and bust out dice so commonly listed. For other special

dice see following pages.

COUNTERBALANCED PERFECT DICE

This is the NEWEST development in percentage dice and represents a scientific discovery for the Do and Don't game operator. COUNTERBALANCED DICE caliper perfect; are not shaped, buffed, weighted or capped and absolutely defy detection without special balancing calipers. COUNTERBALANCED DICE are made in any size or color transparent, but we recommend 5/8 or 11/16 inch as the most satisfactory. These dice have been tried and tested and will show a very attractive percentage on the line but not enough to damage the outside or percentage points. Include six of these dice along with your PERFECT DICE and receive the profits you deserve. Concave or flush spots.

- No. 10H143. Counterbalanced Dice, flush inlaidPer Pair 4.50

SHAPED PERFECT DICE

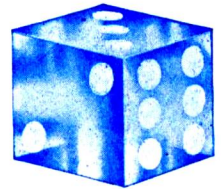

The necessity of protecting the take is acknowledged and to meet this requirement we offer our PERFECT DICE very mildly shaped. The flat is not apparent and can only be detected with the use of instruments, but an increased percentage on the line, while still protecting the outside and percentage points, makes these dice a favorite with the banker. Best results are obtained with a slightly brushed edge. For Flush Spots, add \$0.50 per pair extra.

- No. 10H123. 5/1000 off on Ace and 6 (extra light).....Per Pair \$2.50
- No. 10H124. 10/1000 off on Ace and 6 (light).....Per Pair 2.50
- No. 10H125. 20/1000 off on Ace and 6 (medium).....Per Pair 2.50

TWO WAY PERFECT DICE

Some operators prefer a two way shape as the flat is unusually mild and this in connection with an invisible bevel affords very satisfactory results. Two Way PERFECT dice are made 5/1000 off on the Ace and Six with 3/1000 off on the Five and Deuce and an invisible bevel on the Deuce. For Flush Spots, add \$0.50 per pair extra.

- No. 10H126. Two Way Perfect Dice.....Per Pair \$2.50

SINGLE DICE COMBINATIONS

These dice are made in various combinations, platinum and gold fills only and caliper perfect. The most popular are Dead Ace, Ace-Deuce or Ace-Deuce-Four for missing and Dead Trey or Trey-Five for passing. For Flush Spots, add \$0.50 per pair extra.

THE use of the old style money drawer and check rack built in the table has been practically discontinued due to the inconvenience of handling chips and the necessity of exposing money when removing from the table. Our new style removable Check Rack and Money Box are now standard wherever Craps are played and permit the dealer to handle checks much faster. The money box is double sided to accommodate one or two dealers, with hinged covers to conceal contents and when in use with two dealers is placed between two check racks, one for each dealer. The money box is 9 1/2 x 10 x 3 inches high and the check rack is 18 1/2 x 9 1/2 x 3 inches high. Both are lined with billiard cloth and nicely finished in mahogany.

CAPPED TRANSPARENT DICE

EXPERIENCED Dice Men the country over have, without exception, declared the EVANS CAPPED TRANSPARENT DICE to be the most astonishing development in percentage dice for many years. These dice are entirely different from ordinary percentage dice, certain sides having a layer of special non-slip material incorporated in them. This material is identical in color and texture with the balance of the dice and cannot be detected, does not collect dirt and the dice will not stick together.

Capped Transparent Dice are made in either Missouts or Passers, the Passers being slightly stronger and are made either medium or strong as preferred, medium always being sent unless otherwise ordered. Capped Transparent Dice can be used where shaped or loaded dice would be detected immediately and are made entirely from sheet stock and caliper perfect.

MAGIC DICE LIQUID

FOR those who prefer to experiment in making percentage dice, similar in action to **CAPPED WORK** we suggest the use of our Magic Dice Liquid as being the easiest to handle. This liquid is compounded from our own formula and penetrates the surface of the dice causing a change in the chemical composition of the material. This results in bringing up the desired faces and offers a good percentage. Magic Dice Liquid is applied with a camel hair brush and can be finished with a high polish, for use on transparent dice **ONLY**. Complete combinations and instructions for applying with each bottle, also special polishing powder, camel hair brush and smoothing paper.

- No. 10H185. Magic Dice Liquid.....Outfit Complete **\$5.00**

TRIP OR SLICK DICE

TRIP Dice, sometimes called Slick Dice, are simply an elaboration of the old style Roughed and Buffed Dice, the theory being that any roughness on certain sides of the dice will cause it to roll over in action until it strikes a smooth side when the dice will slide to a stop. Trip Dice are made in several popular styles and combinations and will give satisfactory results only to operators who continually replace their dice for the life of this type of work is very limited and after a few hours play the work is worn down until it is no longer effective.

Trip Dice are made in sharp or turned edge only. Trip Dice show better results in the polished finish, and on cloth surface.

RAISED EDGE TRIP DICE

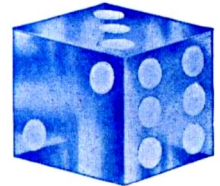

A popular style Trip Dice showing a good percentage when new in either missouts or passers. Dice caliper perfect and are made with sharp edge only; any size or color.

- No. 10H181. Raised Edge Trip Missouts, any combination.....Per Pair **\$2.00**
- No. 10H182. Raised Edge Trip Passers, any combination.....Per Pair **2.00**

CUT EDGE TRIP DICE

This is another type of edge work slightly different from the raised edge work above and one that will stand for closer inspection, giving the operator about the percentage of 5/1000 flats. Dice caliper perfect, turned edge only. Made in any size or color.

- No. 10H183. Cut Edge Trip Missouts, any combinationPer Pair **\$2.00**

SAW EDGE TRIP DICE

Another variation of the turned edge, preferred by some. This work is very mild, but in combination with a slightly raised spot, the percentage is considerably increased while new. No extra charge for this work. Made in any size or color.

- No. 10H184. Saw Edge Trip Missouts, any combination.....Per Pair **\$2.00**
- No. 10H186. Saw Edge Trip Passers, any combination.....Per Pair **2.00**

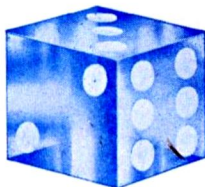

RAISED SPOT TRIP DICE

This is one of the popular examples of Trip Work and because of its construction is somewhat less subject to wear. Sharp, Turned or Slightly Rounded edge. Made in any size or color.

- No. 10H187. Raised Spot Trip Missouts, any combination.....Per Pair **\$2.00**
- No. 10H188. Raised Spot Trip Passers, any combination.....Per Pair **2.00**

FILLED TRANSPARENT DICE

FILLED Transparent Dice with a percentage almost as great as filled White Dice are now made possible by the use of our special platinum and gold spot fill. The spots appear natural and a special reaming assures spots that will always remain tight. Platinum fills, using 24-gauge platinum produce the strongest dice. 24-gauge gold fills are only a degree less effective and where a moderate percentage is sufficient the amalgam filled dice will prove entirely satisfactory.

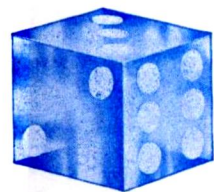

FILLED TRANSPARENT MISSOUTS

This is a perfect pocket set and for general play will prove most satisfactory. These dice will work on any surface except dirt or a blanket and show a handsome percentage for the Banker at all times. One dice is made to come Ace and the other Six and Deuce, bringing up the numbers 3 and 7. Spots look entirely natural and we suggest 5/8-inch dice with slightly rounded corners for best results. Fair dice to match included with each set, no switching during play.

- No. 10H150. Platinum Filled Missouts.....Per Set \$23.50
- No. 10H151. Gold Filled Missouts.....Per Set 15.00
- No. 10H152. Amalgam Filled Missouts.....Per Set 10.00

FILLED TRANSPARENT PASSERS

While not quite as strong as the Missout Dice, the Filled Transparent Passers will show a very satisfactory percentage, especially when used on a smooth, hard surface giving the dice plenty of action. We recommend the use of the platinum or gold fills in this combination unless a very mild percentage is sufficient, in which case amalgam fills will prove satisfactory. These dice are filled to bring up the numbers 4, 6, 8 and 10 most often and it is not necessary to switch during play.

Slightly round corner dice in the 5/8 inch size give best results, fair dice to match with each set.

- No. 10H153. Platinum Filled Passers.....Per Set \$23.50
- No. 10H154. Gold Filled Passers.....Per Set 15.00
- No. 10H155. Amalgam Filled Passers.....Per Set 10.00

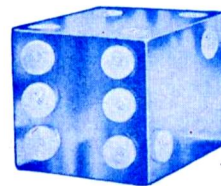

THREE DICE COMBINATION

This is a popular combination set and consists of five dice, three filled and two fair in transparent, all to match. Two of the filled dice are the regular old stand-by missouts, Ace and Six Deuce. The third filled dice is a strong Deuce Four and when used with the Deuce Six makes the points 4, 6, 8 and 10 the favorites. The filled dice bear a secret mark avoiding the possibility of mix ups and complete instructions are supplied with each set.

- No. 10H156. Platinum Filled Three Dice Combination.....Per Set \$34.50
- No. 10H157. Gold Filled Three Dice Combination.....Per Set 22.50
- No. 10H158. Amalgam Filled Three Dice Combination.....Per Set 15.00

We also furnish three dice sets in various other combinations at the price of the set listed.

GOLD LOAD BIRDSEYE INLAID DICE

Flush Birdseye Inlaid Spot Transparent Dice are an exclusive Evans product and one that every operator should consider. These are PERFECT Dice, entirely hand made with spots inlaid and flush with the surface and caliper perfect.

SHAPED PERCENTAGE DICE

THE dice listed on this page, while differing from the filled dice on the preceding pages, are very popular among smart players. There is no inside work on these dice whatever, the percentage being obtained by means of work on the surface of the

dice. Shaped dice are not mis-spotted and will balance perfectly and will prove most satisfactory where it would be impossible to use filled dice. Do not confuse these dice with the old style hand made buffed shapes as these dice are machine made throughout and represent the very highest grade of work obtainable.

NEW IDEA CRAP DICE

New Idea Crap Dice will show a much stronger percentage than other shaped dice as four of the faces are shaped in such a manner as to bring up the numbers 2, 3, 7 and 12 more often than they would ordinarily appear. The dice are machine made and accurately spotted and polished; mechanically correct. This set will give more all around satisfaction in a steady game than anything on the market. Made in any color transparent or white, 5/8 inch most satisfactory size. Passing Dice show a mild percentage only.

ELECTRIC DICE FOR MAGNETS

ELECTRIC Dice for Magnets, both in White and Transparent, that are absolutely positive in action when they fall over the magnet plate are a proved success and below we list the most satisfactory combinations. In manufacturing Transparent Electric Dice there are limitations and restrictions that make it impossible to produce them in as wide a variety as is possible with White Dice and it is an established fact that more power is required to obtain results, and a magnet that will operate perfectly with white dice cannot always be depended on for perfect results when Transparent Dice are used.

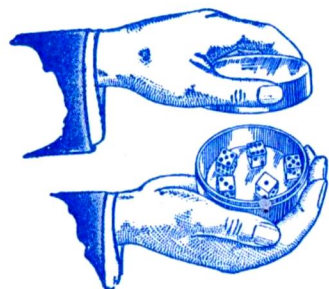

All EVANS Electric Dice are thoroughly practical, not only in theory but in actual use. They have been developed beyond the experimental stage and are guaranteed satisfactory or MONEY REFUNDED.

TRANSPARENT ELECTRIC DICE

PERFECT Transparent Electric Dice, made to come top and bottom numbers and sure in action are supplied in 5/8, 11/16 and 3/4 inch sizes, any color.
