How to Order. To insure prompt and rapid handling of your order eliminating all possibility of delay, list EACH item separately, taking care to give CATALOGUE NUMBER AND NAME OF EACH ARTICLE DESIRED. Use our regular order blank if you have one, if not, use any blank piece of paper. Always sign your FULL NAME. Please write your name and address very plainly or print it as you cannot be too careful in this matter.

Important Notice Due to present conditions we can not accept orders for any kind of merchandise or repair parts amounting to less than \$5.00 per order. Please cooperate with us in this matter.— EVANS

How to Send Money. You can send money by post office money order, bank draft or cash by registered letter. DO NOT SEND PERSONAL CHECKS as they must be returned to the bank for collection, resulting in considerable delay.

Methods of Shipment. All items as quoted are net F. O. B. Chicago. Packing and delivery to the express company is included but all transportation charges are to be paid by the customer. Shipments will be made by express, freight or parcel post. Shipments must be called for promptly to avoid storage charges. Shipments in care of postmaster must be accompanied by remittance in full, plus necessary postage to final destination.

Freight Shipments. Customers wishing goods by freight may send full amount with order or on receipt of deposit we will ship in our own name with sight draft for the balance. The bill of lading and draft will be sent to the nearest bank and upon payment of the draft you will receive bill of lading for the merchandise.

Shipments in Care of Shows. If you are connected with a Carnival Company, Circus or Traveling Show do not fail to furnish your ROUTE AT LEAST ONE WEEK IN ADVANCE. This is most important and will many times permit us to route ahead when we know a shipment cannot reach you at destination ordered.

Lost and Damaged Shipments. Every shipment forwarded by us is carefully packed to prevent damage or loss in shipping and both our address and address of consignee is plainly printed on the package. When shipments are lost or damaged in transit we will gladly assist in filing claim but cannot hold ourselves liable, as accepting a receipt for the shipment in good order from the carrier voids our title to the merchandise.

Returning Goods. Do not return ANY goods received from us without first writing us. If your order is not perfectly satisfactory write us explaining what the trouble is. If necessary to return them we will write you. NEVER SEND US MERCHANDISE OF ANY KIND without prepaying the charges and making sure your name appears INSIDE the package.

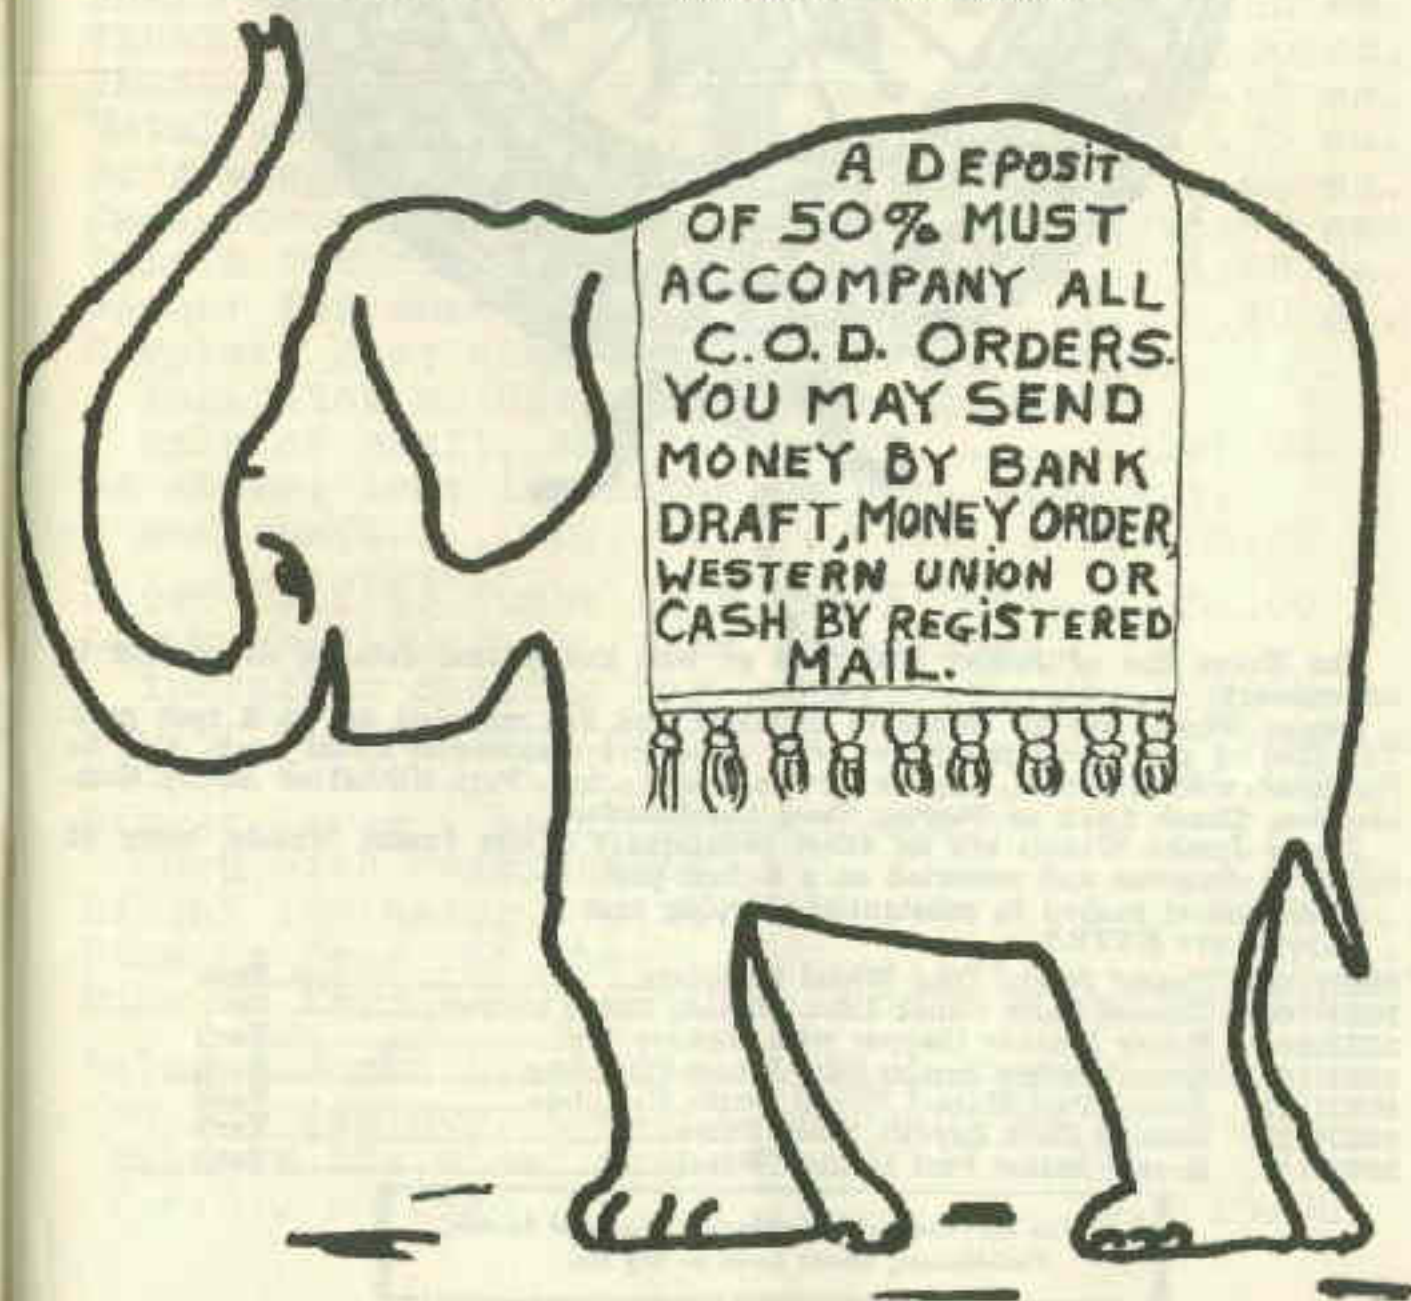

PRICES AND TERMS. Open account terms are extended to well-rated firms, schools, institutions, Churches and Government agencies. Firms without a published rating may apply for an open account by submitting trade and bank references.

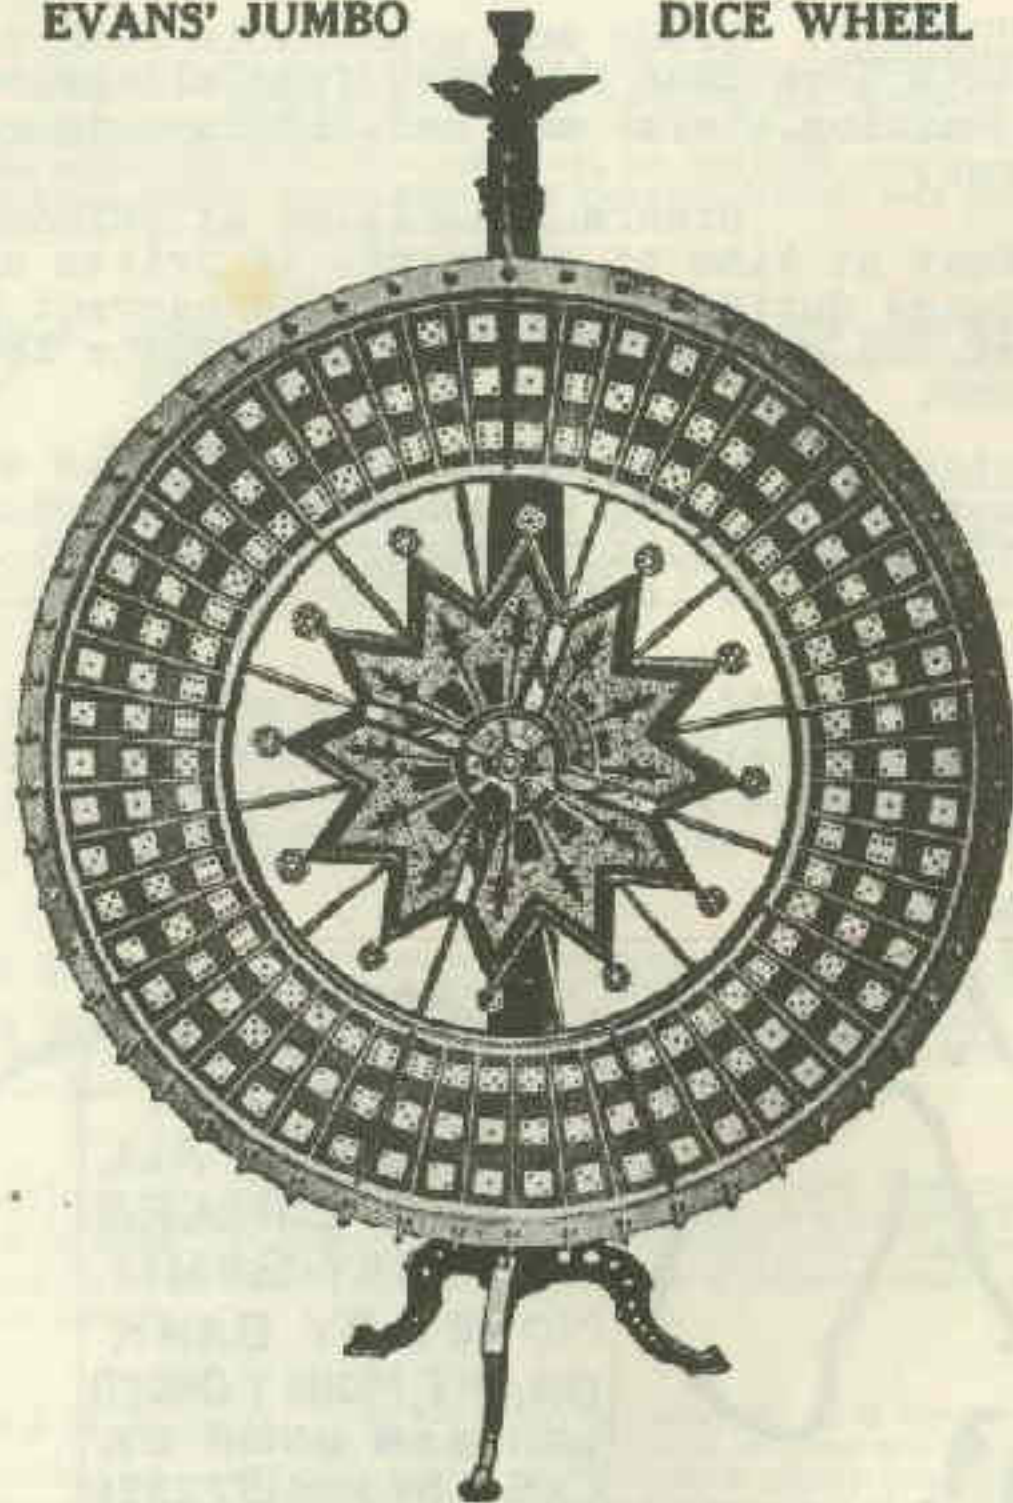

DISCOUNTS. Trade and applicable cash discounts have been deducted from all prices in catalog. Terms are net, 10 days to rated firms.

Orders are filled at prices in effect at time of shipment. If prices are reduced during the life of the current price list, we give you the benefit of the lower price.

Postage. Customers enclosing checks with orders should add exchange and allow a sufficient amount to cover parcel post charges if it is desired to ship order in that manner.

If order is to be shipped by freight or express, and destination is a prepaid point, please remit such amount as will enable us to prepay charges.

The Evans line of Jumbo Wheels is so well known that detailed description is unnecessary.

Jumbo Wheels are 60 inches in diameter and are mounted on an 8 foot post. The face of the Wheel is covered with glass and ornamental metal work. Can be furnished with Numbers, English Crown and Anchor, Pari Mutuel or Money Combination, Chuck Luck or Playing Card Combinations.

Junior Jumbo Wheels are an exact counterpart of the Jumbo Wheels, being 32 inches in diameter and mounted on a 5 foot post.

Either wheel packed in substantial shipping case. Layouts are EXTRA.

MUTUEL BETTING

EVANS' HORSE RACE WHEEL

CHANGING ODDS

This is an attractive wheel which has great popularity in all locations where a side game is desired to furnish spectacular play and at the same time afford the operator a handsome percentage. The wheel is 30 inches in diameter, mounted on an 8 foot post and is equipped with a mutuel mechanism having changing odds, ranging from 5 to 1 to 15 to 1. The face of the wheel is covered with chipped glass in ornamental design, picturing ten popular race horses in action. The wheel is perfectly balanced, spins absolutely true and is mechanically perfect without complicated parts, packed in substantial shipping case designed for repeated use.

The Evans' Junior Horse Race Wheel is an exact reproduction of the large wheel and is 32 inches in diameter and mounted on a 5 foot post.

PADDLE RAFFLE WHEELS

Evans' Paddle Raffle Wheels are strong and well built to stand constant hard use, mounted on ball bearings in special bearing container eliminating possibility of loss. Wheels are 32 inches in diameter, perfectly balanced. All wheels equipped with unbreakable spring indicator and wood hanger. Regular wheels have ordinary brass pins and we also make them with heavy pins bolted through the rim making them very substantial.

SERIAL PAPER PADDLES

Paper Paddles for use with Raffle Wheels are printed in sheets on heavy cardboard in assorted colors and perforated. Each paddle or ticket bears a serial number and each sheet has a large printed heading showing the series number which is different on each sheet, permitting the use of one or more sets at a time. Standard combinations are carried in stock at all times, special combinations to order.

Paddles 12 to the set, 1 number on each, are listed as 12-1s, 15 to the set with four numbers on each as 15-4s, etc. The illustration shows a single paddle or ticket, reduced one-half. Paper Paddles are supplied in lots of 100 only and no C.O.D. shipments will be made.

LAY DOWN RAFFLE WHEEL

30 Number 4 to 1

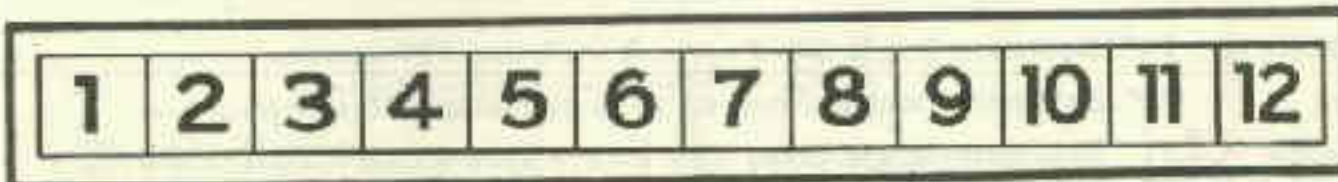

The 30 space Lay Down Wheel illustrated is designed along new lines and is one of the most satisfactory wheels of its kind ever produced. The Lay down Wheel entirely eliminates the use of paddles or tickets and permits the operator to make a turn with one or more players successfully.

The wheel is 32 inches in diameter, strong and substantial, perfectly balanced and mounted on ball bearings. The wheel is mounted on a wood hanger with unbreakable spring indicator with fiber tip and is made with the regulation brass paddle wheel pin or with special pins bolted through the rim for heavy service. Other standard combinations furnished without extra charge.

EVANS' BALTIMORE WHEEL

This is an extra heavy, extra strong wheel, designed for the Professional Concessionaire; a wheel that will stand up under the heaviest service with unflinching satisfaction. The wheel is made of 1½-inch kiln dried white pine, beautifully hand painted in white lead and oil and decorated in attractive colors, and made in all standard sizes in combinations for Silverware, Blankets, Hams, Bacon, Dolls, Candy, etc.

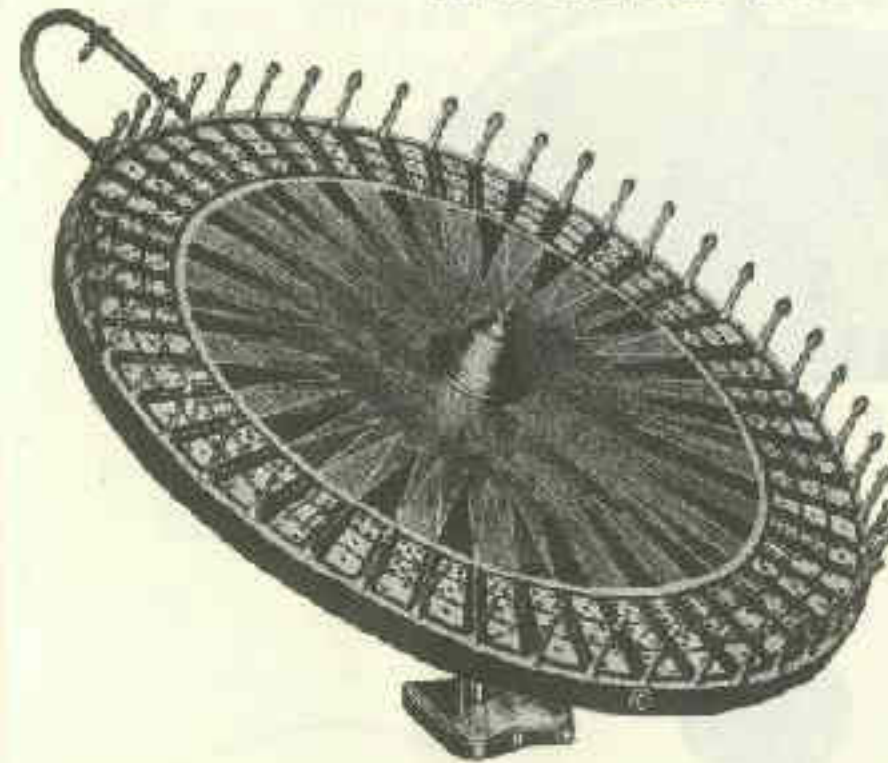

The Evans' Baltimore Wheel is perfectly balanced and spins true on a bronze bearing mounted on a hardened and ground steel axle. The percentage is uniform at all times and each wheel is equipped with our latent

design indicator holder and rubberized indicator. An important feature of these wheels is the extra heavy screw type pins which will not come loose, even under long and continuous use. Immediate shipment on all orders.

EVANS' UMBRELLA WHEEL

Something new in the way of a laydown wheel. Beautifully striped in Red, White and Blue, with numbers and characters done in gold.

The wheel is perfectly balanced and spins on a bronze bearing. Highly plated pins of the type used on the famous Evans' Jumbo Dice or Big Six Wheel.

The wheel is 20 inches high over all and 15 inches in diameter.

In addition to the 16 single numbers plus the Star, and Skull and Cross Bones, there are 6 other propositions on the layout, assuring a good play at all times.

Layout is made of very heavy enamel cloth, beautifully colored, 50x36"

Percentage to the operator is very liberal.

EVANS' AUTOMATIC ROLL DOWN

This new and different roll down with the automatic totalizer is proving one of the best money makers we have ever produced. It permits the use of a large and varied assortment of premiums and absolutely eliminates the possibility of out counting a player. The action of the indicator as it adds the score is a real business getter and makes this outfit a remarkable repeater.

The alley is six feet long, slightly elevated at one end with 17 circular openings, each of which is numbered. Back of these is the upright automatic totalizer which automatically shows the total points scored according to the numbers on the circular openings into which the balls are rolled, the points for each ball registering as fast as scored. The usual method of operating is for a ten cent play and all balls are retained at the end of the alley until play is completed, when they are returned to the player and the totalizer reset at zero. This is a very important feature as it permits one operator to handle several tables without confusion or mistakes. Scores totaling 11 or less receive consolation prizes, a nominal prize for scores of 12 or 13, a capital prize for a total of 14 and prizes in proportion for scores of 14 or 15. When operated in a park or other

permanent location the Automatic Roll Down is without equal where it is desired to permit season play with premiums deferred until the close.

The mechanism is simple and trouble proof. The dial of the totalizer is 34 inches in diameter, handsomely painted and easily removed for shipping. In construction the entire outfit is strong and substantial, nothing to go wrong or get out of order. Shipping weight, 100 pounds.

20EH365. Complete with totalizer and four balls... Each
20EH396. Sixty Wood Balls..... Each

EVANS' BIG TOM

This is a short range two-way ball throwing game based on science and skill and has met with deserved success. It is operated 10c for one ball, three balls 25c and a box of candy to the player successful in knocking Big Tom to the ground. Big Tom must fall from the shelf, "losers" do not score.

The outfit consists of a portable stand 24x24x48 inches high and one extra heavy canvas cat 29 inches high. The cat is specially designed and weighted, mounted on a wood block. The outfit is light in weight, can be set up and taken down in five minutes. Complete instructions for operating included with each outfit. Baseballs are extra. Shipping weight 40 pounds.

20EH385. Complete without balls..... Each

20EH396. Extra Cats..... Each

EVANS' 7-11 BASEBALL GAME

This is a novel idea in a baseball game adapted from the old and ever popular Baseball Tivoli. The game as illustrated consists of a hopper shaped board with twelve pockets, each pocket being numbered to correspond to the faces of a die. At the end and at right angles to the playing board is the automatic electric score board. Two balls are used, the player standing six feet

from the board and tossing them into the hopper, the object of the game being to score a total of 7 or 11. As the ball settles into one of the pockets the corresponding number is flashed on the automatic score board and when a winning score of 7 or 11 is made an electric bell rings calling the attention of the operator. This makes it possible for

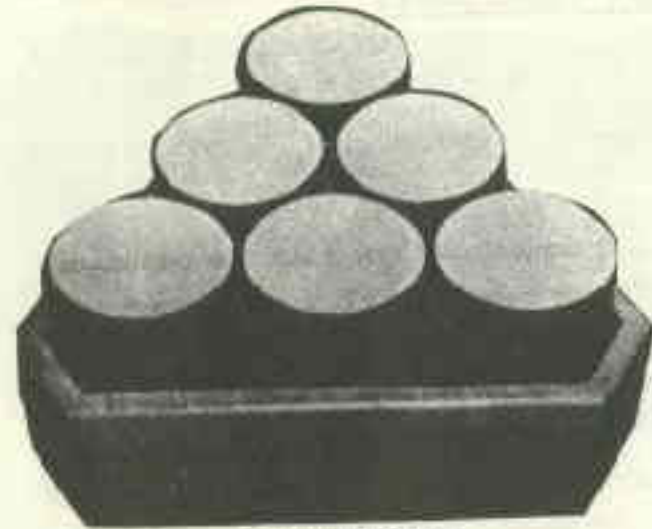

one operator to handle several boards and acts as a hally as well.

The boards are 25 inches wide by 40 inches long; side rails and back board are folded onto the main board for shipping and a six foot extension cord with plug to attach to any light socket is included with each outfit. The boards are strong and handsomely finished and guaranteed for service, Science and Skill and a big winner.

The outfit illustrated is designed for the ordinary run of merchandise.

EVANS' KRAZY BALL

Front view

Side view

The game consists of a hopper-shaped cabinet with twelve pockets, each pocket being colored to correspond with the colors on the electric score board.

The score board consists of mirrored crystal glass with screened colors, which can also be disconnected and placed into the hopper cabinet to make it a portable unit.

The entire cabinet is handsomely finished, equipped with a six foot electric cord, fused for safety and ready to operate at all times.

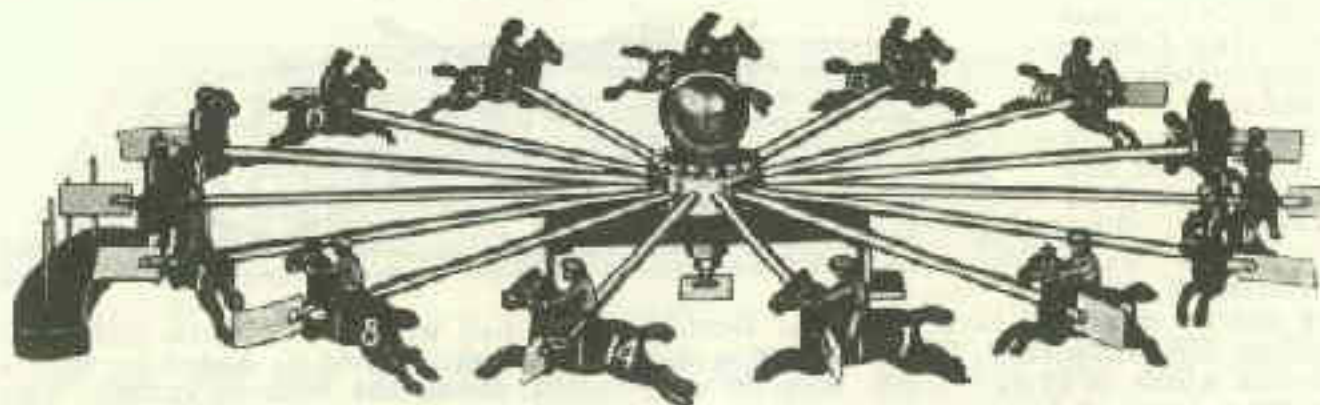

Really a game of science and skill.

The player stands approximately three feet from the game, tosses the balls into the hopper; the object being to get three of the same color. As each ball settles into the pocket, the corresponding color is flashed on the automatic score board; when three of the same color is obtained, an electric bell rings, calling the attention of the operator. This makes it possible for one operator to handle several boards and acts as a bally as well.

Various pay-outs and plays may be arranged by the operator to suit the location.

EVANS' SKILLO PONY TRACK

● The Evans' Pony Track through its superior performance has leaped into nation wide popularity until today it is recognized as one of the most successful outfits for the disposal of high grade merchandise. This is the new Skillo type 15 or 16 horse outfit and the great advantage of the Skillo Track is appreciated by every practical concessionaire. No cumbersome fold-up board is required with this outfit and it can be entirely dissembled and carried in a small hand bag.

The Evans' Pony Track can be operated on any 36-inch counter using an 9-inch center board. It is easy to set up and there are no fine adjustments necessary. The outfit consists of one complete Skillo saddle, the small numbered horses and supporting rods, center hub with tool steel bearing and glass bearing rest. The action is positive and the outfit has a wonderful and most natural creep, control arranged through the use of a foot board. The winning post is arranged for percentage and the entire outfit is practical in every respect. All metal parts are nickel plated, horses painted in attractive colors and numbered by hand.

No. 20G446	15 Horse Pony Track, complete (33 inches in diameter)	Each	5

No. 20G469	Lay Down Cloth 15 or 16 numbers	Per foot	
No. 20G468	Extra Horses	Each	

PERCENTAGE PONY TRACK

● This is a percentage proposition strictly and is made with a straight board 36 x 12 inches with slow bearing. This is not a creeper but the outfit made in this style has met with wonderful success for bazaars, picnics, etc.

No. 20G296	15 Horse Percentage Pony Track, complete	Each	3
No. 20G297	16 Horse Percentage Pony Track, complete	Each	

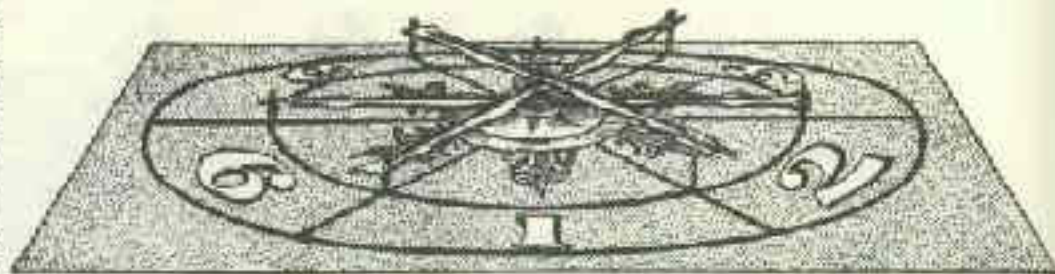

Peapool Outfit

Consists of 5 rows, numeral holes in a table size 18"x36" playing surface is made out of 7 ply 3/4" plywood. This is what is called a pea pool end for the table. These holes are numbered from 1 to 16 and your pills are numbered from 1 to 16—Complete with a pill box, end table and pills.

THREE ARROW SPINDLE

This is the most popular Chuck Luck Spindle ever made. The arrows are heavily nickel plated and mounted on good bearings. The layout is hand painted in colors

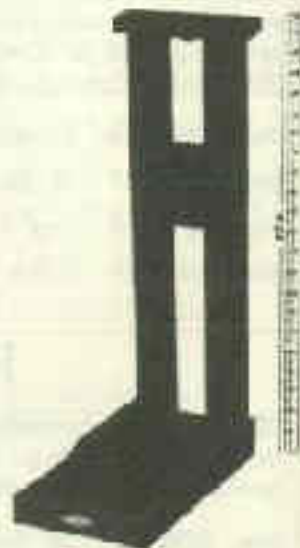

on enamel cloth, 36 inches square. Outfit may be had with Chuck Luck Layout as shown or with special Horse Layout and we also make a fold-up board to fit the layout which is extra. When ordered with layout we mount without charge. This outfit is too well known to require any lengthy description.

- 30EH165. 6 Horse Layout.....Each
- 20EH147. Fold-up Board for Layout.....Each
- 30EH285. Extra celluloid feathers.....Per Dozen

WORLD'S FAIR STRIKER

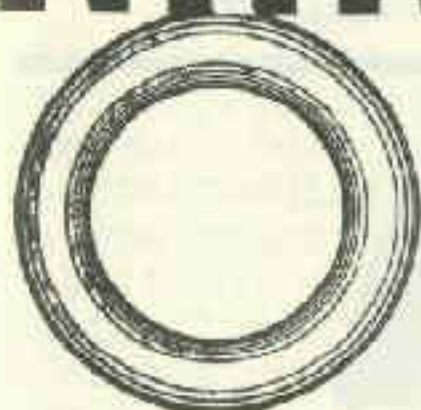

This is one of the most practical hand strikers or "bingers" ever produced and one that can be depended on to do the work. It is a three-way store, very easily controlled, the regulator being set as the indicator is lowered after each strike. The World's Fair Striker is particularly designed for a ten cent grind and never fails to get a play.

The Striker stands 22 inches high and is 6 inches wide, made of hardwood with brass trimmings, strong and substantial, nothing to get out of order. Weight 6 pounds. The carrying case is strong and neat in appearance and the layout or chart is hand painted in colors. Complete instructions for operating included with each outfit.

- 20EH181. Striker only.....Each
- 20EH177. Enamel Cloth Layout.....Each
- 20EH182. Carrying Case.....Each

WOOD KNIFE RACK RINGS

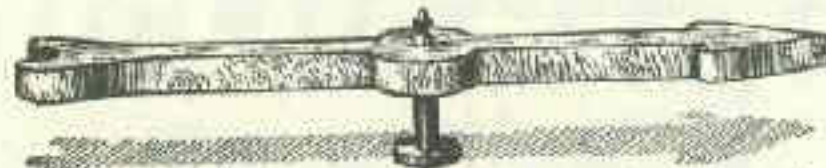

Our Knife Rack Rings are extra heavy quality 1 1/4 inch inside measurement, nicely finished in mahogany. These rings are specially made for Knife Racks, Pitch 'till You Win Stores, etc., and are uniform in size.

- 30EH284. Knife Rack Rings.....Per 100

WOOD ARROW

This is a 30 inch arrow made of maple and perfectly balanced and loaded. It is mounted on a steel bearing and is a very practical arrow, strong and substantial, suitable for any spindle game. Weight 5 pounds, 1 1/2 inches thick.

- 20EH417. Wood Arrow.....Each

ARROWS FOR SPINDLE GAME

These arrows are correctly proportioned and balanced, handsomely nickel plated and mounted on a nickel plated stand. Each arrow is slotted for indicator with thumb screw attachment, smooth in action, revolving on a good metal bearing.

- 20EH148. 17 inch, 3 pound arrow and stand.....Each
- 20EH149. 20 inch, 4 1/2 pound arrow and stand.....Each

IMPROVED SKILLO

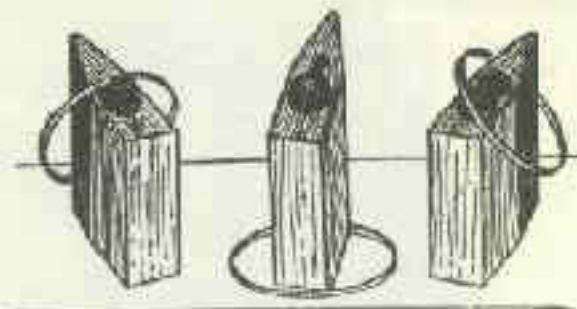

This outfit is too well known to require detailed description.

The Evans' Base is acknowledged to be the finest piece of machine work obtainable, perfect in operation. The arrow is 30 inches long, weighted and balanced, weighing 11 pounds. Outfit as illustrated with instructions for operating.

- 20EH184. Improved Skillo, complete.....Each
- 20EH310. Arrow and Shaft only.....Each

WATCH A LA BLOCKS

The Evans' Watch a La Blocks as illustrated offer the concessionaire the only safe method of using valuable watches on a Hoop La stand. The blocks are made of hardwood nicely finished with a velvet lined watch pocket. A few of these blocks on any Hoop La stand will more than double the play and the operator is perfectly safe in using Elgin movements for prizes.

- 20EH73. Watch a La Blocks.....Each
- 30EH73. 6 Inch Hoops for above.....Per doz.

"Success is not easily attained. You are certain to fall if you do not love your work."

WARNING - SET JOINT OPERATORS

We have repaired more arrows this year than ever before -many sent in were hopeless to repair. The damages were caused from using too stringent an indicator causing eventual shack to the delicate controls and resulting in premature blowing. We can only guarantee arrows using the Evans indicator-greatly improved this year-but still not too stringent to cause harm.

\$24.00 gross. \$2.25 dozen in 3 dozen shipments only.

CHICAGO SET SPINDLE

This is the old reliable spindle and has met with more success in disposing of merchandise than any spindle game ever conceived. The bed of the spindle is 22 inches square, covered with green felt. The spaces are divided with twisted pins and the arrow is of hardwood with celluloid indicator. This is a two-way store, too well known to require any detailed description. Each Chicago Set Spindle is shipped in a handsome imitation leather carrying case. Complete instructions with each outfit.

Roll Tickets in Single Form—Consecutively numbered, 2,000 single tickets printed "ADMIT ONE". 5 assorted colors available. List per roll

IMPROVED BEE HIVE

This is an old stand-by, a two-way grind store that has always been successful, a fast and positive merchandise distributor, as sure as a set. The Bee Hive is mounted on a 22-inch square board covered with green felt. In the center of this a specially designed wood cone supports the nickel plated wire bee hive or cage. Beneath this cone a 15-inch aluminum disc is placed which is grooved and numbered from one to 30. Merchandise can be displayed directly upon the board or a chart may be used. The control operates odd and even, construction is strong and trouble proof.

In operation the player drops a 3/8 inch steel ball through the opening in the top of the cage onto the wood cone. It travels down through the cage being in sight practically all the time and comes out in one of the numbered grooves, signifying the reward player receives. The outfit is built in a handsome imitation leather carrying case, complete instructions with each outfit.

ONE BALL BOTTLE

Fastest 25c play of any ball game ever created.

- Operator works with a 12 inch softball.
- Bottles are set in series of 3 or 4.
- Operator has choice of working with 6-lb. bottles or 3-lb. bottles.

Three Legged Bottle Stand

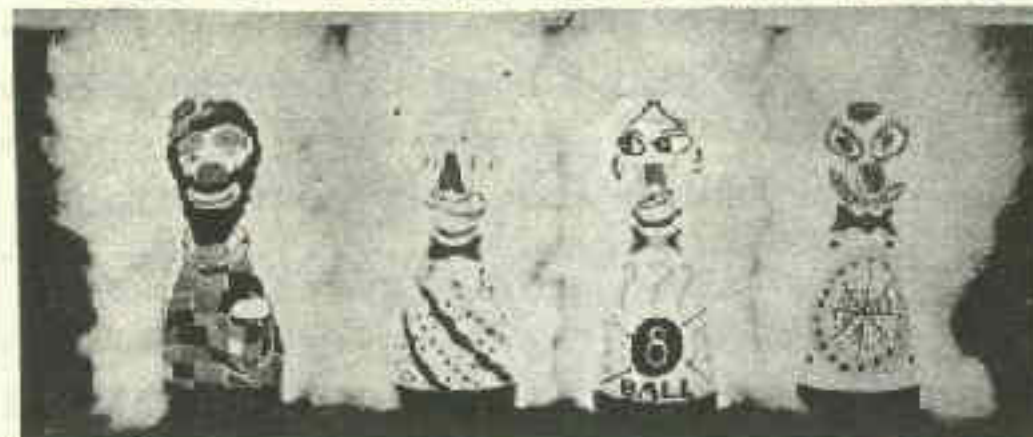

These stands are 17"x17" cut on a triangle and are made out of 1 1/4" lumber with 1/4" masonite on top and bottom.

Come well padded with rubber tire all around slightly above the board so that bottles will not roll off easily.

Has 3/18" legs, 3 floor flanges bolted to the bottom at a 45° streets.

Cats or Punks for Punk Racks

Our new cat or punk—again our artists have tried to outdo all others with color and glamor. We are now giving you 15 various designs on this 15" punk. They have a high grade wool sewed all around and a hardwood bottom with extra binding on the front and back to prevent wear. Faces are uniform. Colors—yes—6 various colors used on one cat. Will not fade or wash out. Wool can be washed with a mild soap without fading your paint job. Never use sawdust or shavings in your punk rack as the wool will pick up these things. These are made to outlast your canvas. Also used as Hit and Miss Cats.

CIGARETTE BLOCKS

Our cigarette blocks, used in a color game, are made of white pine, sanded and painted in neutral gray color, which make them ready for applying your own colors for the lay-down which you may have.

We also can supply the blocks painted, in our standard color scheme, which is also used on the lay-downs.

8 Sided blocks have the following colors: RED, ORANGE, BLACK, GREEN, WHITE, YELLOW, BROWN, BLUE.

6 Sided blocks are painted in RED, BLACK, GREEN, YELLOW, WHITE, BLUE.

SIZE:- Eight sided wood cigarette block is 3 inches overall.

Six sided wood cigarette block is 2 1/2 inches square.

Eight sided plastic cigarette block is 2 inches overall.

Six sided plastic cigarette block is 1 1/4 inches square with 1 inch colored circles.

AUTOMATIC THREE PIN GAME

This is a Science and Skill grind store that has met with great success for Carnivals, Picnics, Fairs, Parks, etc., and holds a fascination for the player that cannot be equalled by any other game of its size.

The outfit consists of a metal bound alley, 15x60 inches, finished with two coats of spar varnish; one special hardwood ball and three hand turned pins. The pins are controlled and automatically reset by means of a small hand lever and the control is very simple and accurate. No experience is required to operate this game and tables are made in pairs, right and left, making it possible for one operator to work two tables without difficulty.

The end of the alley back of the pins is protected with rubber matting and fitted with a canvas pocket to receive the ball after it strikes the pins. Shipping weight 26 pounds.

20EH65. Automatic Three Pin Game, complete.....
20EH66. Extra Hard Wood Ball.....	Each
20EH61. Extra Pins	Each

ENGLISH POOL GAME

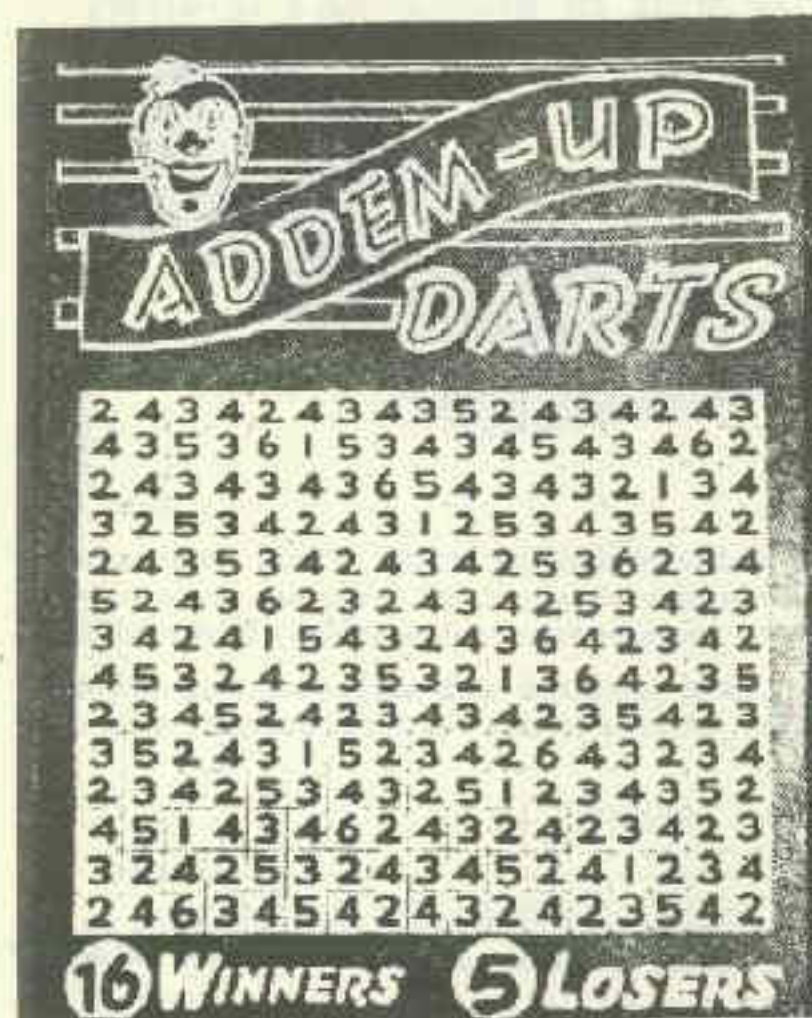

This is a small and unusually attractive outfit that cannot be excelled for Picnics, Fairs, Carnivals, etc. The game is novel and can be operated for either merchandise or money with equal success and is under control at all times. Complete instructions with every outfit and no experience is required to operate successfully.

The outfit consists of a 20x52 inch felt covered alley with a canvas pocket at the end to receive the balls, two special pool balls and one cue. In operating, three coins are placed on one of the balls in the center of a circle painted on the alley and the player endeavors to drive the cue ball, striking the ball in the circle so as to throw the coins outside the ring. Rewards may be arranged for one, two or three coins out and the game is very fast. Shipping weight, 30 pounds.

16 WINNERS 5 LOSERS

This game used with our chart has a repeat appeal to your customer. By this time you must know everyone loves to win and there are a lot of winners in this game.

This game is screen processed on beaver board in three beautiful colors. This game uses either 3 or 4 darts and can be worked for 25c and you can flash \$5.00 and \$6.00 merchandise. These are marvelous boards for large operators to keep on hand just in case you want quick change of a joint. This game is very simple to operate.

SPONGE RUBBER DART GAME

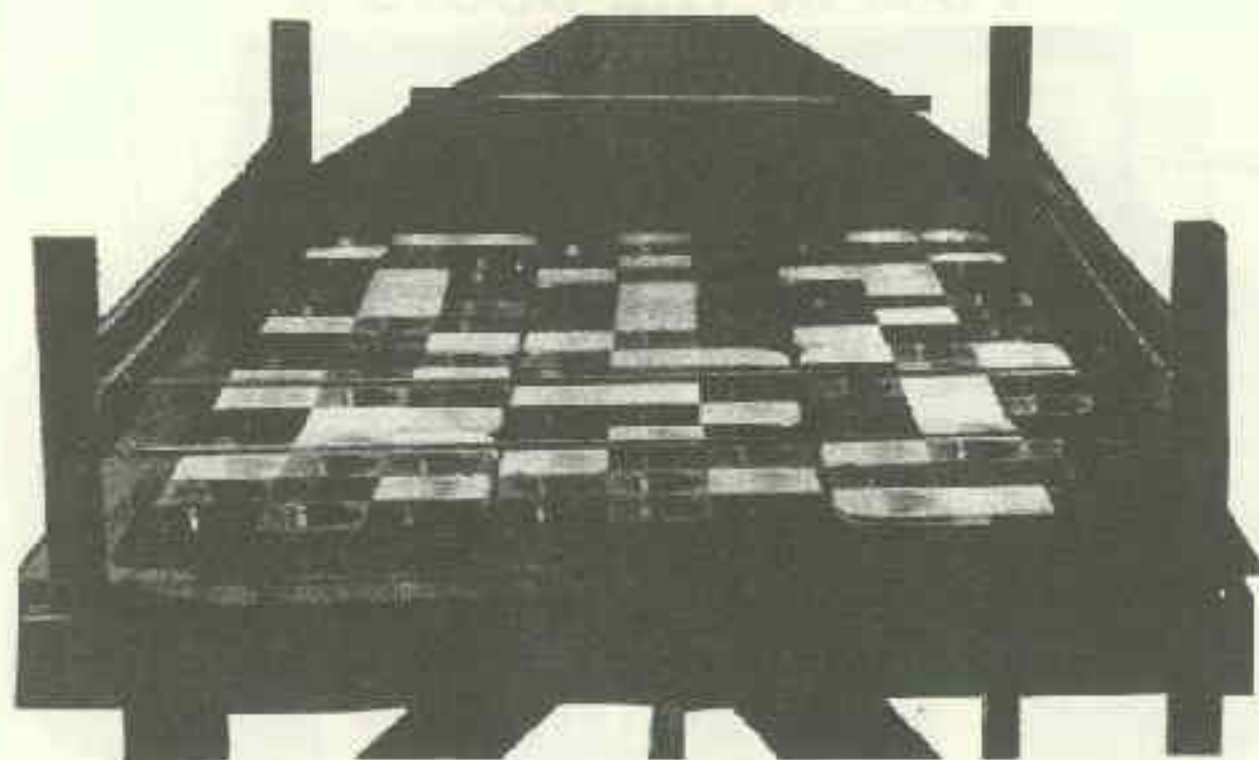

This board is mounted on $\frac{1}{2}$ " plywood and is made with white nylon thread dividing the lines so there is never a question of where the dart lands. Sponge is red background with white numerals. One of these sponge rubber dart boards will take in many thousands of dollars without wearing out. We have reduced the size of the board and added to its appearance so that the board does not take up too much of your display space.

PUSS IN THE BOOTS

One of our new Kittie Cats is a six cat. This is a handsome cat in three various colors with a good substantial band on the bottom. Will out last a lot of others.

SIX CAT

This is the most beautiful sturdiest Cat ever built for a Cat Rack. Plenty of flash and immediate delivery.

This Cat made of heavy Sail Number Duck. Packed as solid as a rock. Hair packed. Has Maple Base.

6 CAT

This is a pip; weight $4\frac{1}{2}$ lbs. each, 23" high, 13" wide over all. Colors loud—YES. Packed solid as a rock. These cats come with white backgrounds, black outline, red dots. This is the class of the six cat.

EVANS' PORTABLE CANDY RACE TRACK

The above is an exact photographic reproduction of the celebrated Evans' 20-Horse Portable Candy Race Track, well known to every concession man as the most practical race track ever produced. It is an exceptionally attractive concession for the disposal of candy and various kinds of merchandise, has a wonderful flash and our three color center wheel which is standard equipment, affords the operator an opportunity to flash his stand in a superior manner.

The outfit shown above has our electric indicator instead of the center wheel. This is an extra feature on these tracks but one well worth while. This indicator consists of a large frosted globe placed in the center of the track in which a series of different colored electric lamps are arranged so as to flash the various colors when the horses are in motion. The color showing when the horses stop denotes the reward the winner receives.

The Candy Race Track is six feet in diameter, octagon in shape and fitted with from 12 to 30 horses, guaranteed absolutely. Large stock on hand at all times and immediate shipment of any standard size.

6" Pitch Till You Win Blocks

No. 43

No. 44—1 inch intermediate

Spot The Spot

Consists of the red circle painted on Masonite boards size 12"x12", 3 of these Masonite boards come with each game with 15 metal discs. Object of the game is to completely cover one of the red spots on the layout with 5 of the metal discs. Instructions included with each outfit.

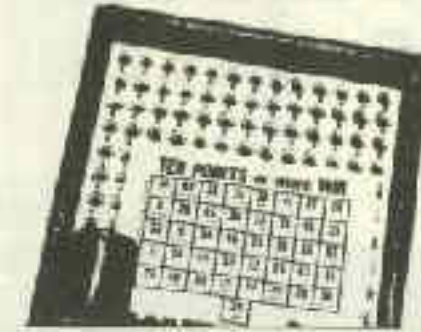

POP-IN BUCKET

Works with three balls. It is a two way science and skill proposition—player attempting to toss balls into tub in such a manner that they don't bounce out. With a little practice any operator can proficiently demonstrate the outfit.

On the inside of the tub is a foul line. The operator must see that the player throws at the red spot.

EVANS' HIGH STRIKER

This is an outfit that will prove a consistent money maker for any Amusement Park, Fair Ground, Picnic, Carnival or other place where people gather out of doors.

It is Strong and Substantial, made of the very best material and will last indefinitely.

The outfit consists of one 26 foot standard, 9 inches wide and 2½ inches thick, made of dry kiln white pine, painted, varnished and numbered from 100 to 3000, one 10 inch gong, hardwood base and striking beam, and 1 maul. The Stan-

dard is made in three sections as illustrated for convenience in shipping and storage; the chaser track is machine steel, bolted to the Standard. The Chaser is made of malleable iron, cadmium plated.

The Standard is mounted on a hardwood base 54x12x3 inches thick and is reinforced and bound with half inch bolts.

The hardwood striking beam is 39 x 6½ x 3 inches thick with tool steel spring and rubber striking cushion of the best para rubber.

BING BOARD

Bing Layout is made with Dyed Billiard Cloth and mounted on Regulation Dice Board 21"x37". We recommend our Perfect Inlaid Assorted Spot Dice for use with this Board.

20EH101. Bing BoardEach

UNDER AND OVER SEVEN BOARD

The Under and Over Seven Layout is made with Dyed Billiard Cloth and mounted on Regulation Dice Board 21"x37". We recommend our Perfect Hand Squared Dice, either white or red, for use with this Board.

20EH100. Under and Over Seven Board.....Each

10EH115. Perfect Dice, Size ½, ⅜ or ¼ inch.....Per Pair

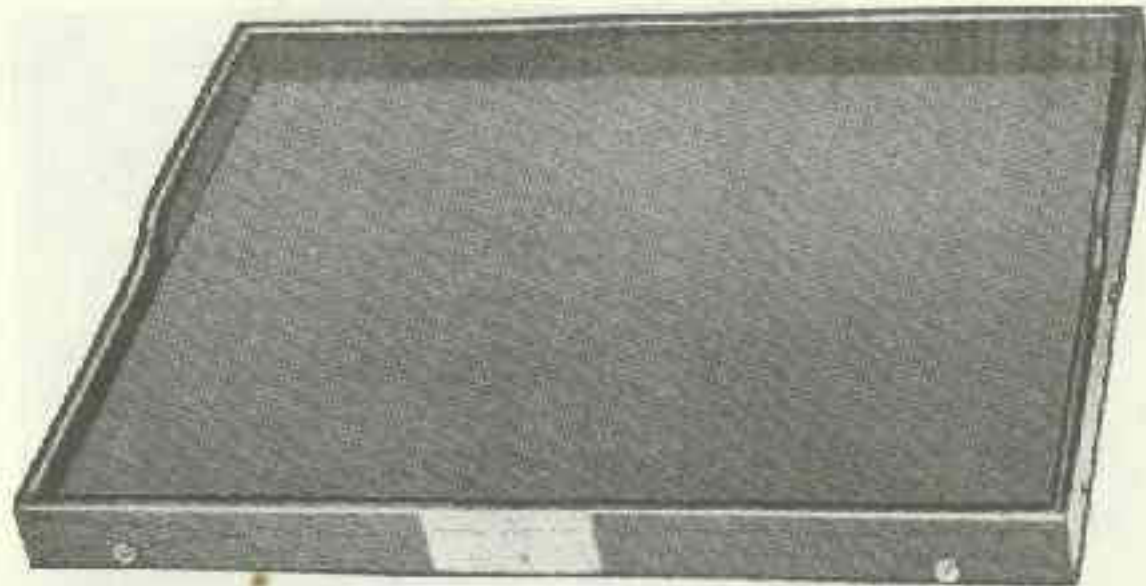

BASEBALL POOL DICE

This special set of three different colored octagon shaped dice, numbered from 1 to 8 have proven to be the most practical set for operation of Base Ball Pools. Full instructions with each set.

10EH163. Base Ball Pool Dice..Per Set \$

COUNTER DICE BOARDS

Counter Dice Boards are made in three styles, each 17"x23" having a 3" back rail tapering to 2" on the player's side.

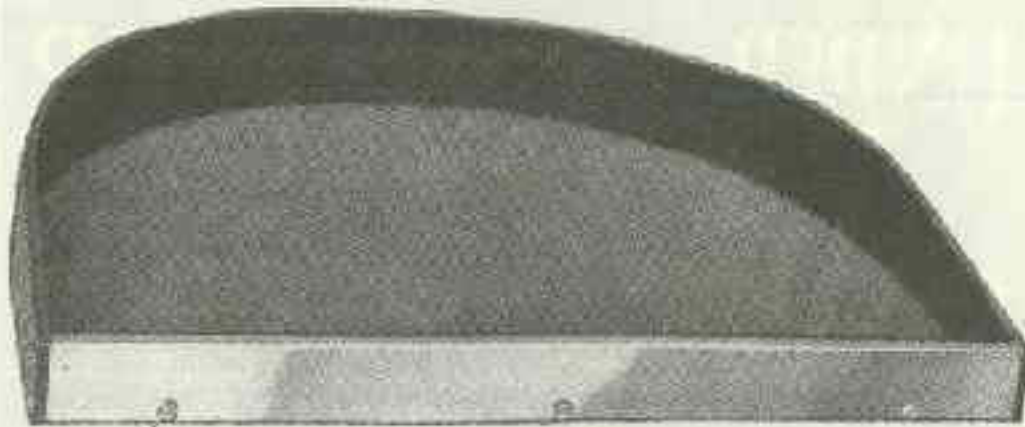

The Regulation board is covered with the best grade Billiard Cloth.

The Master Board (Patent No. 2,178,435) is made with sponge rubber inlaid in the back rail, half way on each side rail, as well as under the billiard cloth cover.

The Master DeLuxe Board is the same as the Master Board, but having the back rail and side rubber covered with Billiard Cloth.

- 20EH13. Regulation Dice Board Each \$
 20EH25. Master Dice Board Each
 20EH26. Master DeLuxe Dice Board Each

HORSE SHOE BOARD

For the locations that wish a practical Dice Board of different design, we offer the Horse Shoe Board, which is 17 1/2"x21" in size, made with a rubber frame and wood front rail, and covered with Billiard Cloth. This board is designed to discourage the player from circling the dice around the back rail, which has a tendency to kill the roll of the dice.

- 20EH12. Horse Shoe Board Each \$

BANK CLEARING OR STOCK EXCHANGE DICE

The vogue of playing Bank Clearing Numbers has swept the country, using a set of three ten sided dice, numbered from one to ten. The dice are 1 1/4 inch in diameter, one dice blue, one red and one white celluloid, making a very attractive set. A splendid banking

proposition, complete instructions with each set.

- 10EH162. Bank Clearing Dice.....Set of 3

NOISELESS CUSHION BOTTOM DICE BOXES

For "26" Game and All Other Counter Games

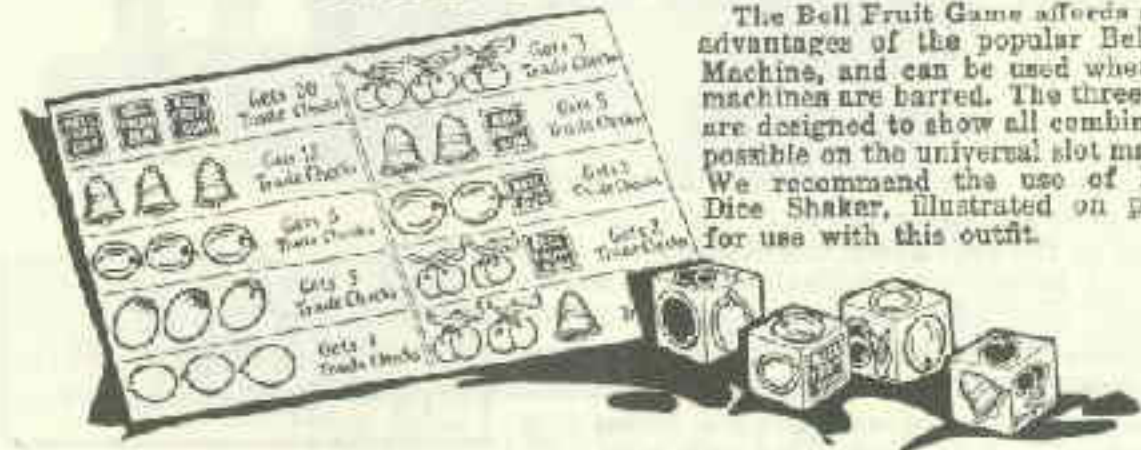

Evans' Noiseless Cushion Dice Boxes are made of heavy sole leather with dice trip at top of box. The interior is lined with rubber and the base of the box is covered with a heavy rubber cushion, protected with a covering of soft durable leather, preventing noise during play, injury to the dice, as well as prolonging the life of the box indefinitely. Made in two sizes—Regulation for 10 dice and Smaller size for five dice.

- 30EH12. Regulation Cushion Bottom Dice Box. Size 3 1/4"x4".....Each \$
 30EH14. Small Cushion Bottom Dice Box. Size 2 1/2"x3 1/2".....Each

We also stock Sole Leather Dice Boxes, Plain or Trip, Slick Dice Boxes, and First Flop Dice Boxes at nominal prices.

EVANS' BELL FRUIT GAME

The Bell Fruit Game affords all the advantages of the popular Bell Slot Machine, and can be used where slot machines are barred. The three cubes are designed to show all combinations possible on the universal slot machine. We recommend the use of Evans' Dice Shaker, illustrated on page 4 for use with this outfit.

- 30EH01. Bell Fruit Cubes.....Set of 3 \$

CALIFORNIA DICE

A popular card machine combination outfit, consisting of five 1 1/4 inch dice and two reward cards, one with a Poker combination from a Pair to a Royal Flush, and the other for Draw Poker.

Floor Model "Soft Breeze" No. 501

The "Soft Breeze" Table Model made a tremendous hit—but many wanted a FLOOR MODEL—so here it is. Same size in width as the Table Model and 43 inches in height.

Complete with the same luxurious trim as the Table Model, with Colored Master Board, and Colored Balls to match (or White Ping Pong Balls if you prefer.) This New Floor Model Catalog No. 501, all ready to plug in and run on any 110-120 Volt, 60 Cycle, AC or DC current.

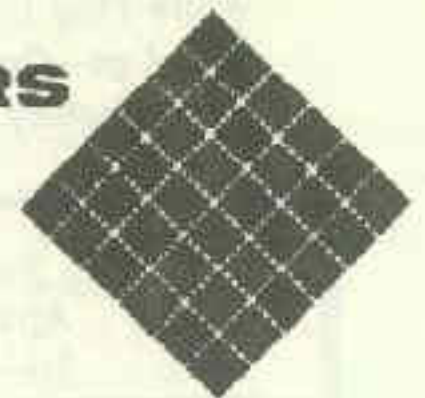

These handsome 3/4" ruby red transparent plastic markers come in easy-to-handle sheets of 25, or loose, 5M to a box. Stock #59

TRANSPARENT AND CARDBOARD

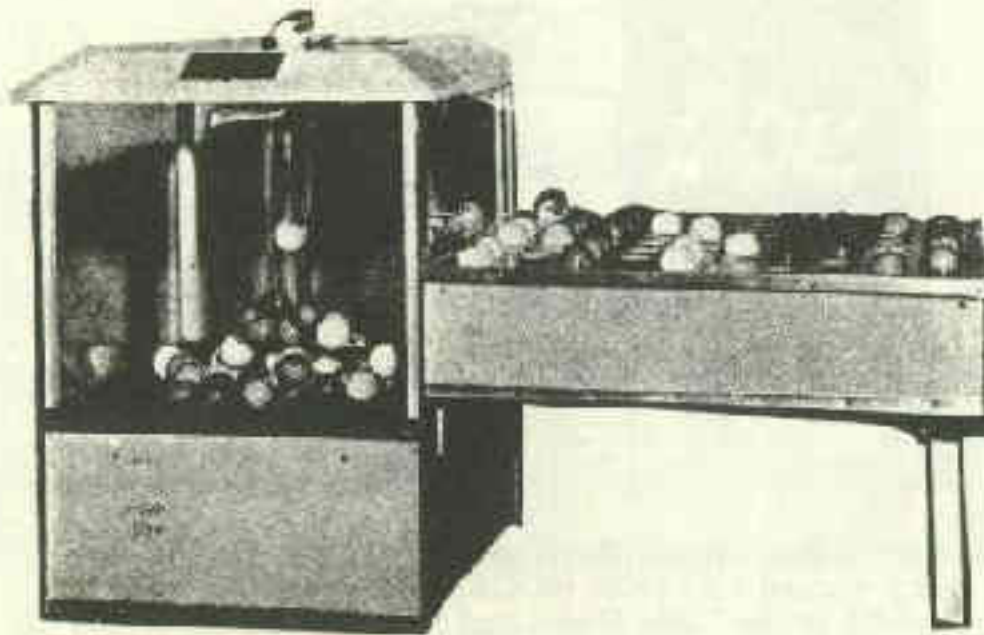

BINGO MARKERS

The cardboard markers come in squares of 25, perforated for quick, convenient use. 10M to a carton. Stock #51

"Soft Breeze" Electric Blower

No. 102-SB Table Model

The way the Ping Pong Ball clicks at the top of the clear Plastic Tube as it is boosted upward by the air current—and the way the Balls seem to be "magically" mixed—continuously hopping and rolling around in plain sight of the Players. Exceptionally quiet—as Balls never hit the Glass Sides. Made of lustrous Grey Marbelized Plastic with Chrome trim. Height only 23 inches. Width 38 inches. Depth 19½ inches.

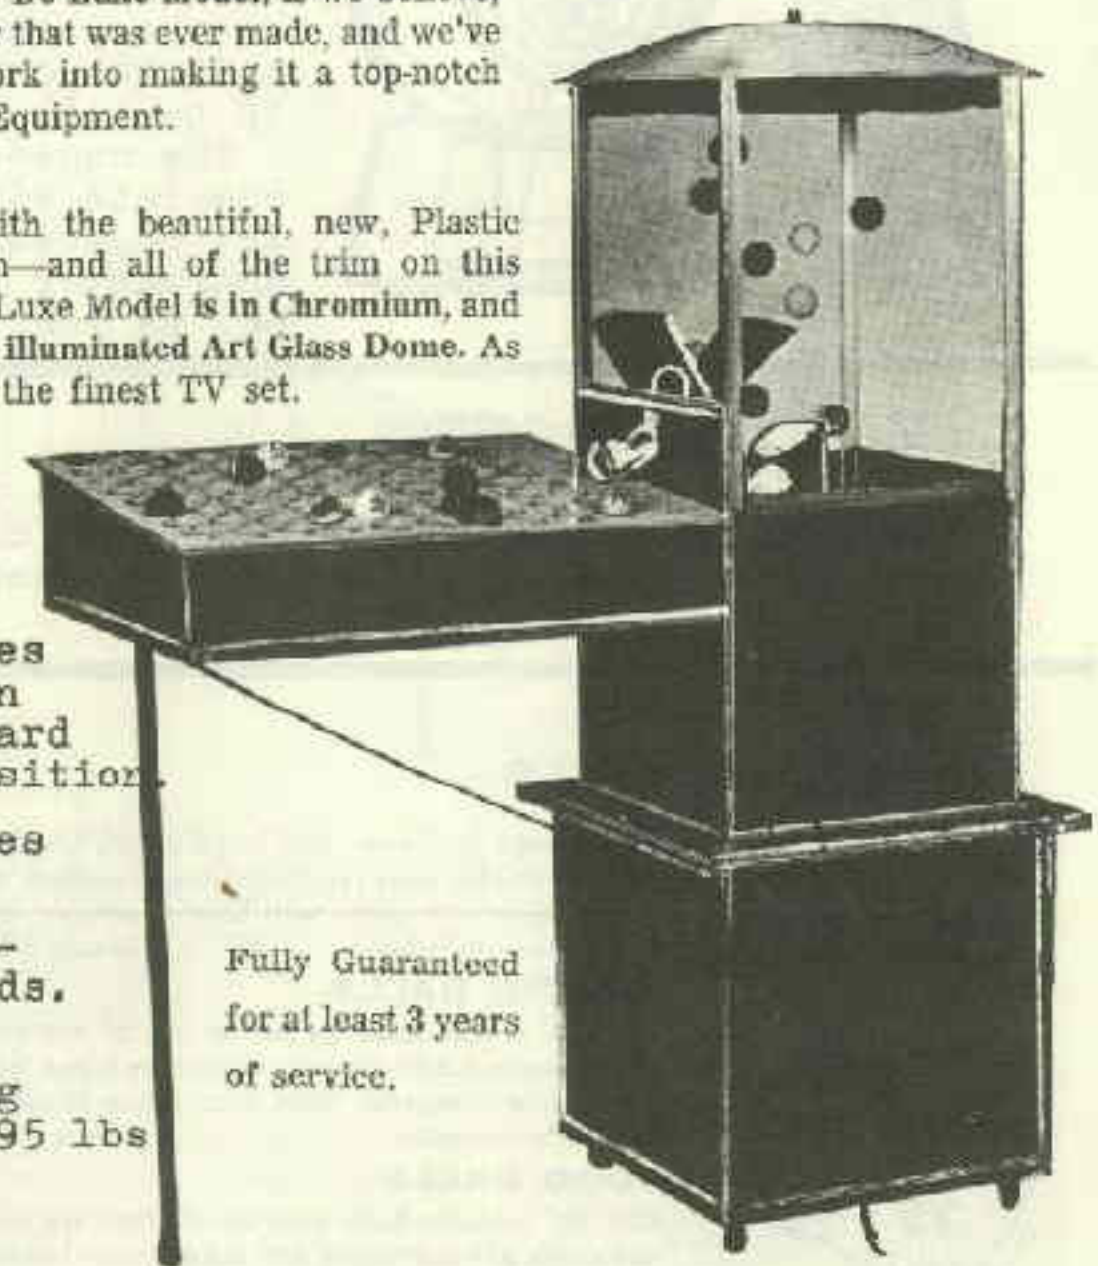

Complete with either the Colored Ping Pong Balls to match the Colored Master Board, or White Ping Pong Balls—crated—ready to plug in and go—Guaranteed for at least three years of satisfactory service.

APRONS— Regular Three-Pocket Usher Aprons. Handy for quick change making. No. U152.....each.

SUPER DELUXE ELECTRIC BLOWER No. 102SDL

This new Super De Luxe Model, is we believe, the best Blower that was ever made, and we've put a lot of work into making it a top-notch piece of Bingo Equipment.

Now made with the beautiful, new, Plastic Walnut Finish—and all of the trim on this new Super DeLuxe Model is in Chromium, and the top has an illuminated Art Glass Dome. As glamorous as the finest TV set.

42 inches wide when Masterboard is in position.

54 inches High.

Weight-62 pounds.

Shipping weight 95 lbs

Fully Guaranteed for at least 3 years of service.

It is made of beautiful Plastic Walnut for three very important reasons.

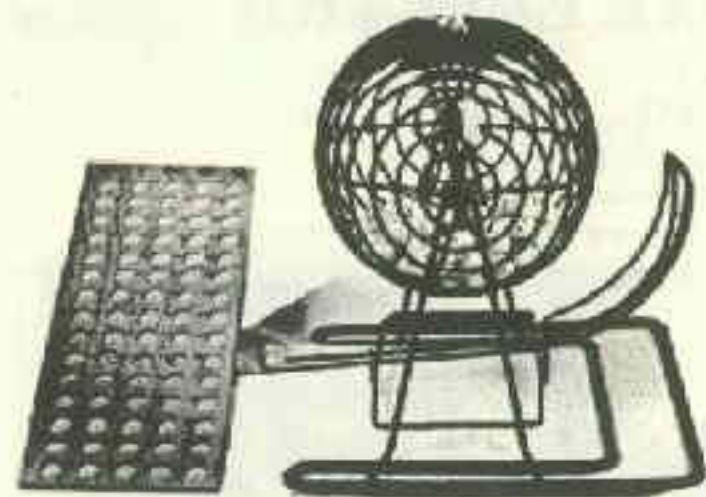

First: and most important, to help eliminate the noise of the sheet metal.

SECOND: to make a much better looking Blower.

THIRD: to make it easier to move around, or store, after Parties.

The Colored Master Board and Colored Balls can now be had with lettering for Beano, Eagle, Tango, Lucky, or Honey, at no extra cost.

BINGO CHUTE CAGES

This popular cage is rubberized to eliminate excessive noise. It throws out one ball into the catcher, then down into the chute ready to be called.

The cage comes complete with one set of wooden balls, and master board. No. EH 106.

LARGE PING PONG CAGE-

Large rubberized cage, throws out one Ping Pong Ball at a time. Comes complete with wood Master board and set of Numbered Ping Pong Balls. No. EH 103.

PING PONG BALLS

To be used in Blower and large cages imprinted on the face for easy reading. Enamel coated, they are available in white with black numbers, or in five different colors. Stock #112

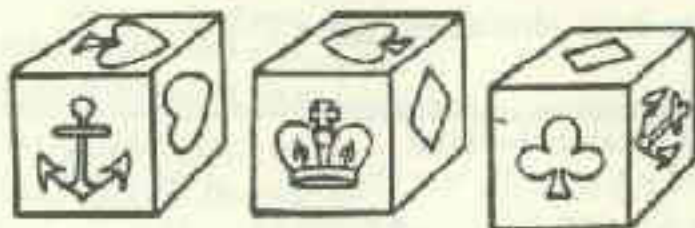

PLASTIC BALLS

The $\frac{3}{8}$ " plastic balls for use in any of our Bingo Cages, are made of soft plastic and are black with white numerals. They also come in sets of five different colors. Stock #113

WOOD BALLS

Our $\frac{3}{8}$ " wooden balls used on all standard cages are made of hard maple with the numbers branded in. Stock #111

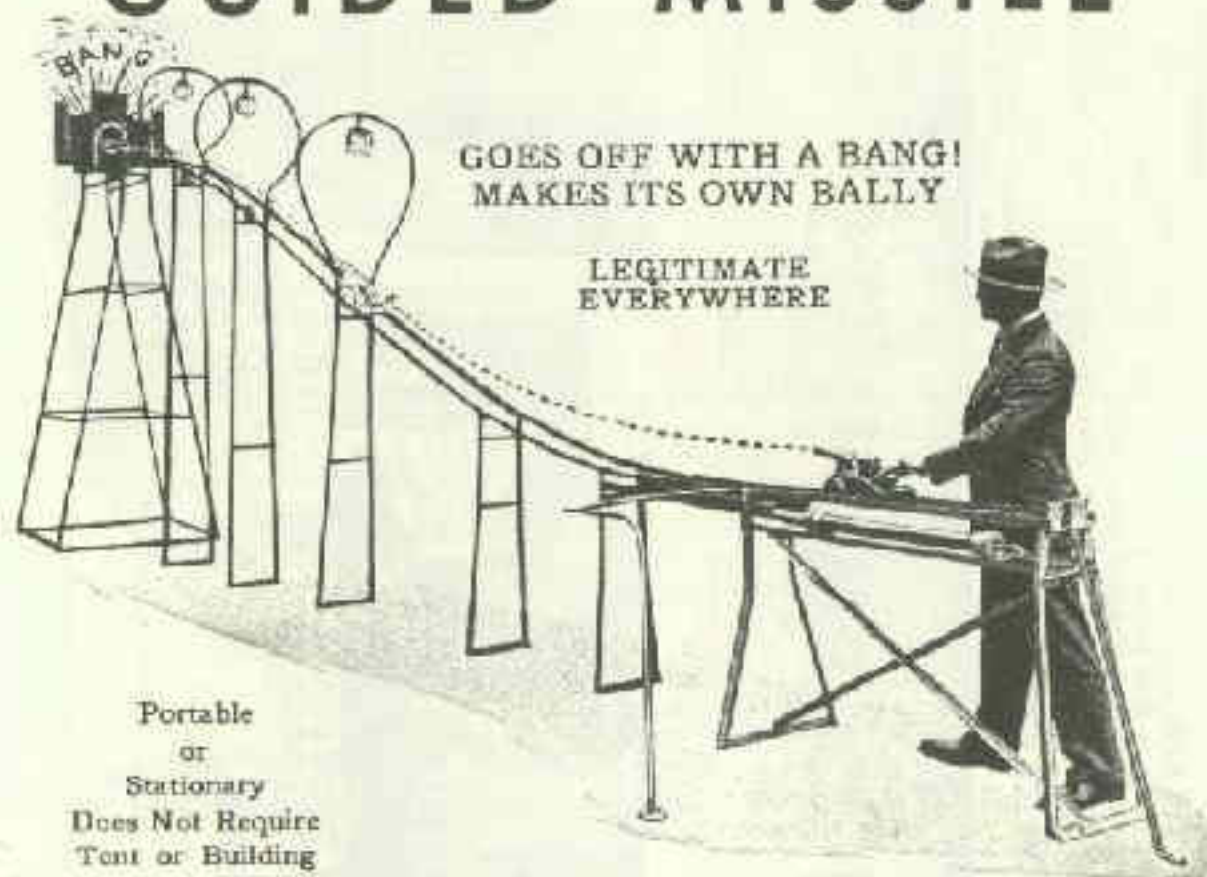

CROWN AND ANCHOR GAME

showing Crown, Anchor, Hearts, Spades, Diamonds, and Clubs, with layout and instructions.

Crown and Anchor Game Complete

Evans GUIDED MISSILE

Simple as ABC, but full of fun and entertainment, Evans' Guided Missile is an amusement concession that offers both old and young a thrilling test of skill and ability. As illustrated, the Guided Missile is a device designed and built to afford the player an opportunity to test his strength and skill in an entertaining manner.

The Guided Missile consists of a substantial steel structure 26' long and 12' high, on which a 15 pound Winchester Repeating Arms Company Deck Cannon of heavy steel construction, mounted on wheels, travels on a steel track. The cannon is equipped with a special hand push, which is grasped by the player, who endeavors to push it along the track with sufficient force to cause it to travel up the incline track, passing over three electrical contacts which light incandescent lamps distributed along the upper track before entering the Miniature Fort at the top. When this is accomplished, the charge in the cannon explodes with a loud report and the cannon automatically returns to the operator, being checked in its descent by a clever braking arrangement. It is then released by the operator and is ready for the next push. The cannon fires standard 32 calibre blanks.

The Guided Missile is operated in a space 26' deep with a 10' front and should be installed in the open. Two men can set it up in two hours. Furnished with or without lighting equipment as desired. Shipping weight 300 pounds.

THE Walking Charley is the greatest baseball throwing game ever conceived and is a game that can be operated year after year in any Park, with undiminished popularity. The indelible figures are very life-like as they move in and out of the scenic back stop and the Walking Charley is a concession that is legitimate everywhere. If you are looking for a game that will produce a steady and satisfactory income with very little expense attached, write for complete description in colors, sent free on request.

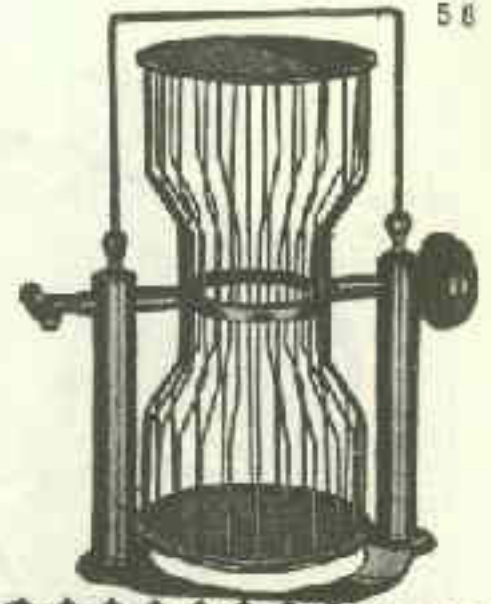

EVANS' WALKING CHARLEY

EVANS' JUNIOR BRASS CAGE

The Evans' Junior Cage is practical in every respect, satisfactory for outdoor use but particularly adapted for use in Club Rooms and Casinos in connection with the Casino Cage Table. This cage is made of brass throughout, is 19 inches high and weighs 12 1/4 pounds, the barrel measuring 15 1/2 inches in length and 7 1/2 inches in diameter and shaped to insure tumbling of the dice. This is a practical cage for Chuck Luck or Hazard and is operated with three 1-inch white celluloid dice.

REGULATION CHUCK LUCK CAGE

This is the most handsome and durable Chuck Luck Cage ever produced, suitable for all general purposes and without an equal for outdoor use. The Regulation Chuck Luck Cage is 21 inches high and weighs 19 1/4 pounds, all handsomely nickel plated and durable. The barrel measures 9 1/2 inches in diameter and 16 inches in length and is equipped with four catgut dice tumblers and multiple geared bell and stop arrangement. A thoroughly practical cage for every purpose. Three 1 1/4-inch white celluloid dice are used to operate.

EVANS' ALUMINUM MILK BOTTLES

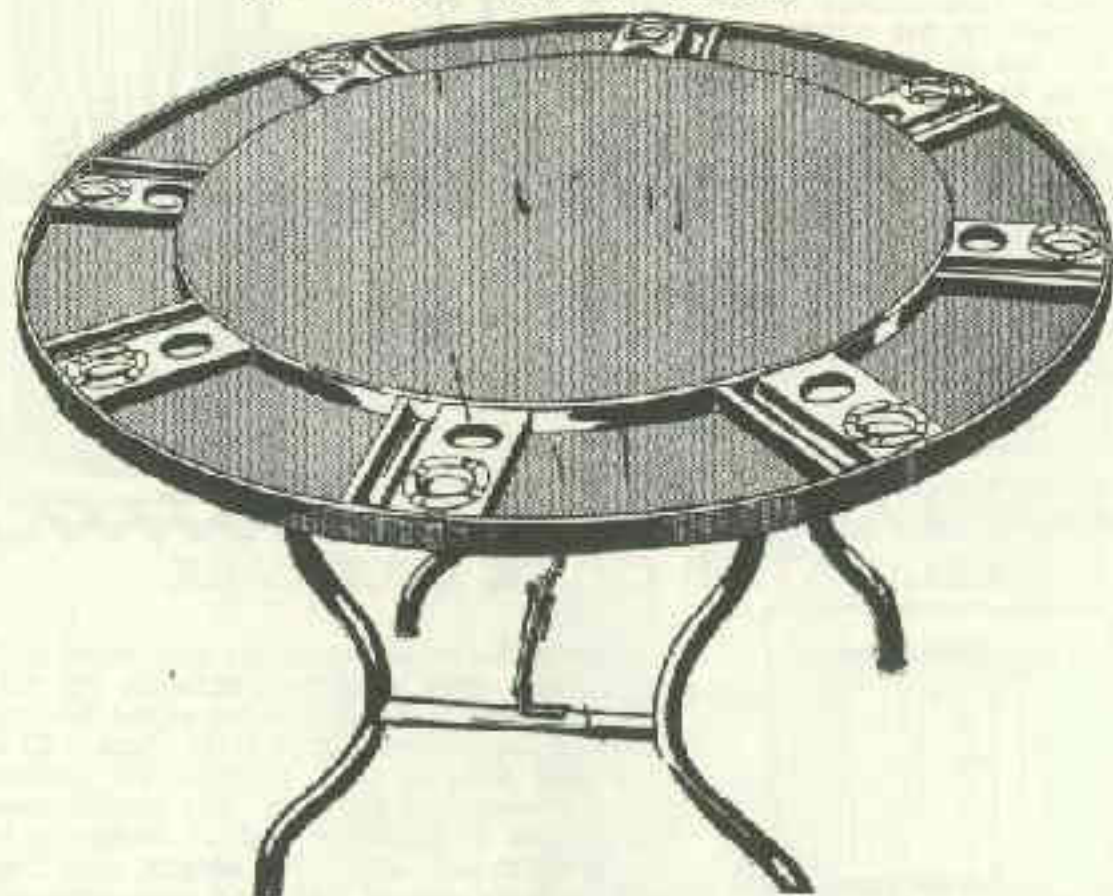

The Evans' Cast Aluminum Milk Bottles as illustrated are a decided improvement over the old style wood bottle. They are indestructible and nicely finished and painted to represent an ordinary bottle of milk. The bottles are placed on a twelve inch board in a pyramid, the player endeavoring to knock all the bottles off the board with three baseballs. This would appear very simple, but due to the special construction of the Evans' Bottles can only be accomplished when so desired by the operator.

Under control at all times, this game will prove successful in any Park or on any Midway; also very good for picnics, resorts, etc. We also furnish the old style wood bottle when desired but do not recommend it in comparison to the aluminum bottle which not only lasts indefinitely but has the sound of falling glass when knocked over.

- 20EH39. Aluminum Milk Bottles, 3 heavy and
 3 lightPer Set

60 INCH POKER TABLE

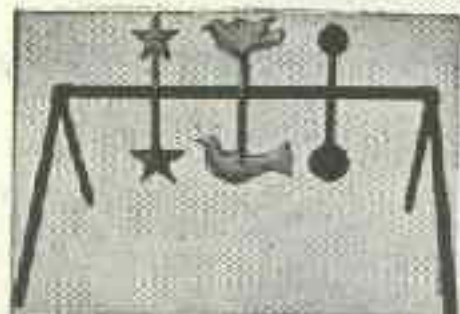

The 60 inch in diameter Poker Table, with a setting of 8 will offer all the necessary space where comfort and privacy is desired.

JARS for TICKETS can usually be purchased locally thus saving shipping charges. However we carry them in stock at all times.

MATCH PAK

The most ingenious and cleverest idea ever developed for use in all territories. Especially good when you do not care to display jars. As it resembles an ordinary book of paper matches, it can be sold anywhere, anytime without attracting attention. The payout is printed on the inside cover of each pak so there is nothing to display. We carry a complete stock of Match Paks but are listing only the most popular ones here. If you do not see the type you want, write us, we will send quotation by return mail.

TIP BOOKS

A quick, dependable way of selling tickets in a hurry. Each book is a complete deal of its own. Extremely popular in territories where they are familiar with this type of operation. The book shown here is the Standard 120 size regular 1-Seal. Machine made, machine pasted, can be easily folded and carried in a pocket. Also available with one seal in the following sizes: 28, 36, 66, 136, 153 and 240. See price list for complete listing of above and also books with 10, 12, 15, 16, 20 and 25 Seal JP. Special Tip Books in a variety of different types for Sporting Events. Keyed Tip Books available in some of the above sizes with fairs to match. Write for information on your particular needs.

LABELS are supplied FREE with each order for Tickets. Holdouts for all types of Tickets, Match Paks, etc., as well as Keyed Tip Books in certain sizes, are available on special order.

BINGO CARDS

The Finger Tip Bingo Card is a favorite as it has an automatic enclosed shutter which can cover the number called, with a flick of the finger. No separate markers required. These cards can be imprinted on the lower end of the card with the name of your club.

Not sold in less than 100 quantities.

AUTOMATIC MECHANICAL SHOOTING GALLERIES

FOR

Indoor and Outdoor
Rifle and Pistol Practice

TO OUR PATRONS

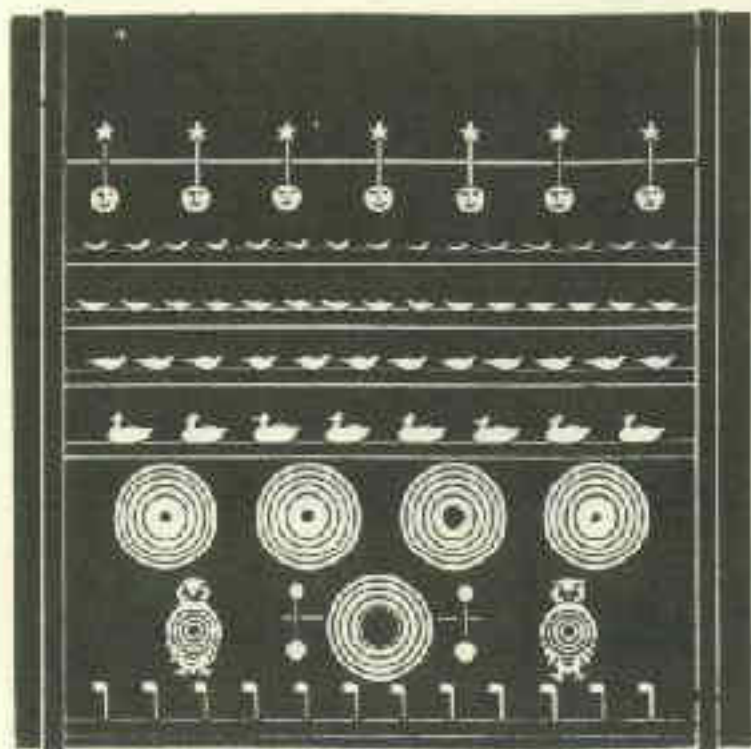

H. C. Evans & Company have been identified with the manufacture of high grade equipment for Parks, Carnival and Concessionaires for the past 60 years, and take pleasure in presenting our new catalog of America's Finest Mechanical Short Range Shooting Galleries.

All of our Galleries are constructed in a thorough and practical manner, by skilled Mechanics, the background being made of 3/16 inch steel and objects of the best grade malleable iron, insuring a Gallery that is practically indestructible.

A feature of Evans' Galleries is that each and every Gallery we send out is fully assembled, inspected and tested under its own power before shipping, then carefully marked and numbered so that the operator will have no trouble in reassembling on his location. Back ground steel plates are securely bolted to angle iron frames.

All galleries and targets are designed for the use of 22 caliber short Gallery ammunition.

GALLERY F--7 ft. High, 7 ft. Wide

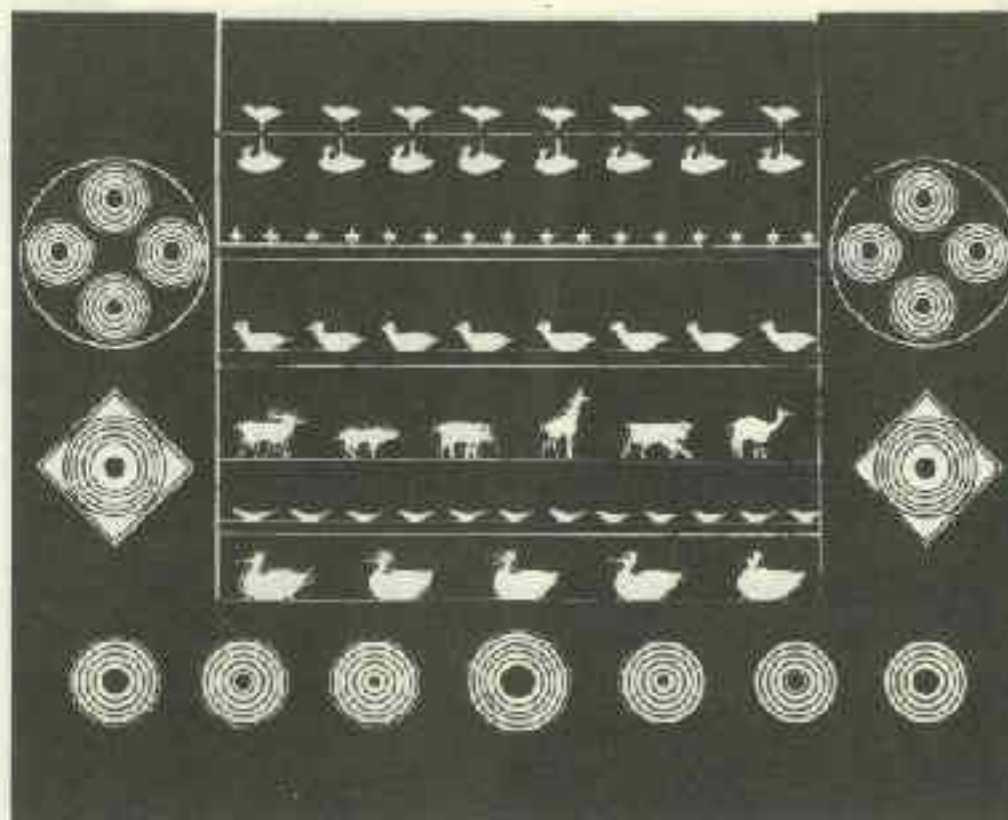

Evans' Gallery F

This is a small and inexpensive Gallery but is a proven money getter. Beginning at the bottom is a stationary Rack of No. 15 malleable iron Pipes and above this at each side a No. 103 Owl target with a No. 164 Swinging target in the center. Following this is a row of four 18-inch steel targets with varying bullseyes and loud gongs, a stationary Rack of No. 5 Ducks, a stationary Rack of No. 11 Birds, a stationary Rack of No. 9 Birds, a stationary Rack of No. 6 Birds and one Rack of No. 48 Spinners. All stationary Racks are reset from the counter.

This Gallery is 7 feet high and 7 feet wide, shipping weight 800 pounds.

GALLERY Y--8 ft. High, 10 ft. Wide

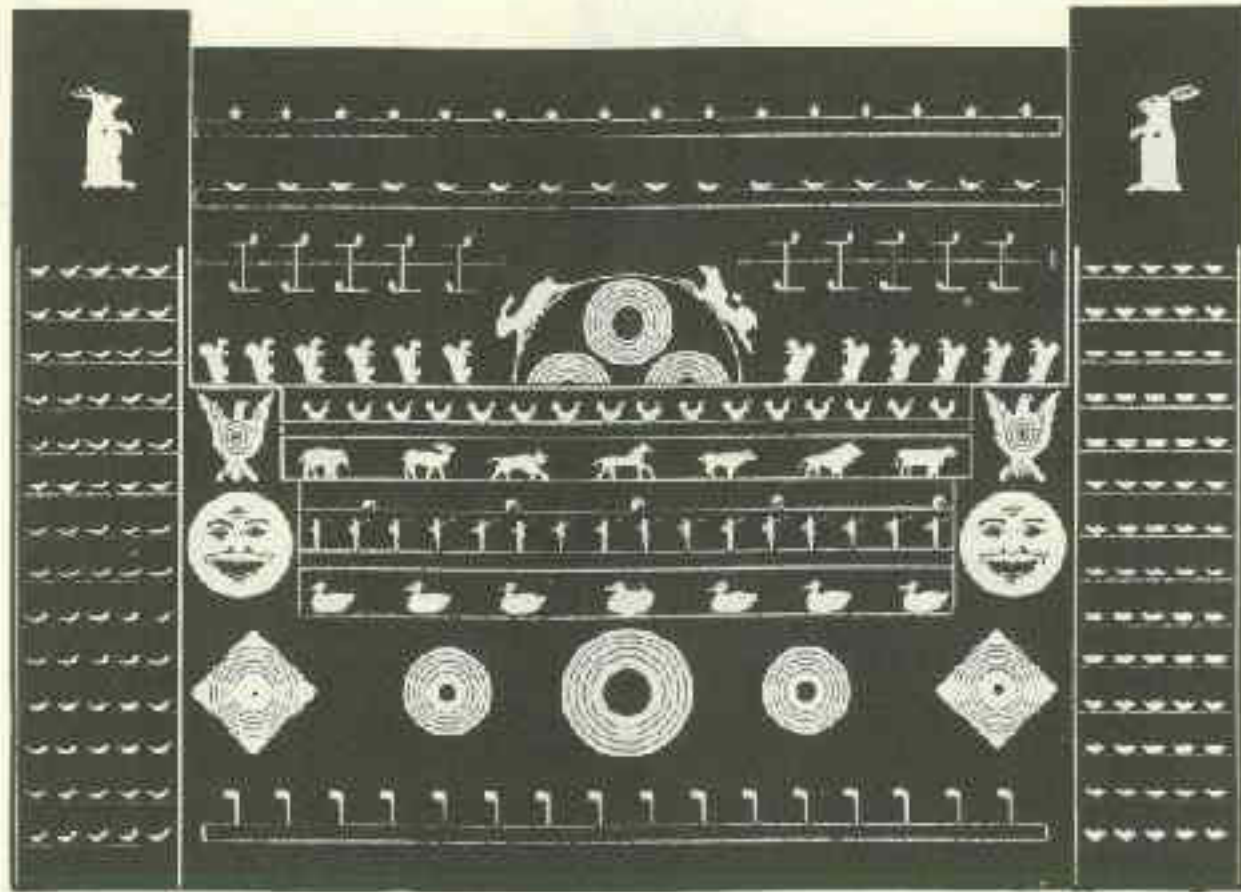

Evans' Gallery Y

This is a small Gallery but a good money getter and is very easy to move and set up. At the bottom are six 10-inch steel targets with various size bullseyes, each with gong, and a large 12-inch target in the center. Above this is a continuous moving row of No. 5 Ducks, reset automatically, then a row of stationary No. 6 Birds reset from the counter, and a moving row of mixed Animals, traveling in the opposite direction to the Ducks but operating in the same manner. This is followed by a stationary row of No. 11 Birds, reset from the counter, then a stationary row of No. 16 Stars which operate the same as the Birds, and then a row of No. 47 Bird and Duck Spinners.

On each side are two 24-inch side wings which conceal the ends of the moving rows and on each wing are one 12-inch square steel target and one revolving Wheel with four steel targets with large bullseye. These wheels are continuously in motion and make a very attractive target, equipped with loud gongs.

This gallery is 8 feet high, 10 feet wide and 30 inches deep, shipping weight 1700 pounds.

GALLERY K--10 ft. High, 14 ft. Wide

Evans' Gallery K

This Gallery is of medium size and is also very popular. The stationary row of malleable iron Pipes at the bottom are reset from the counter, followed by a row of bullseye targets with loud gongs. Above this is a row of continuously moving Ducks, automatically reset, then a stationary rack of pull-up Soldiers, then our Rolling Steel Ball device, next a row of continuously moving animals, followed by a stationary pull-up rack of No. 13 Roosters.

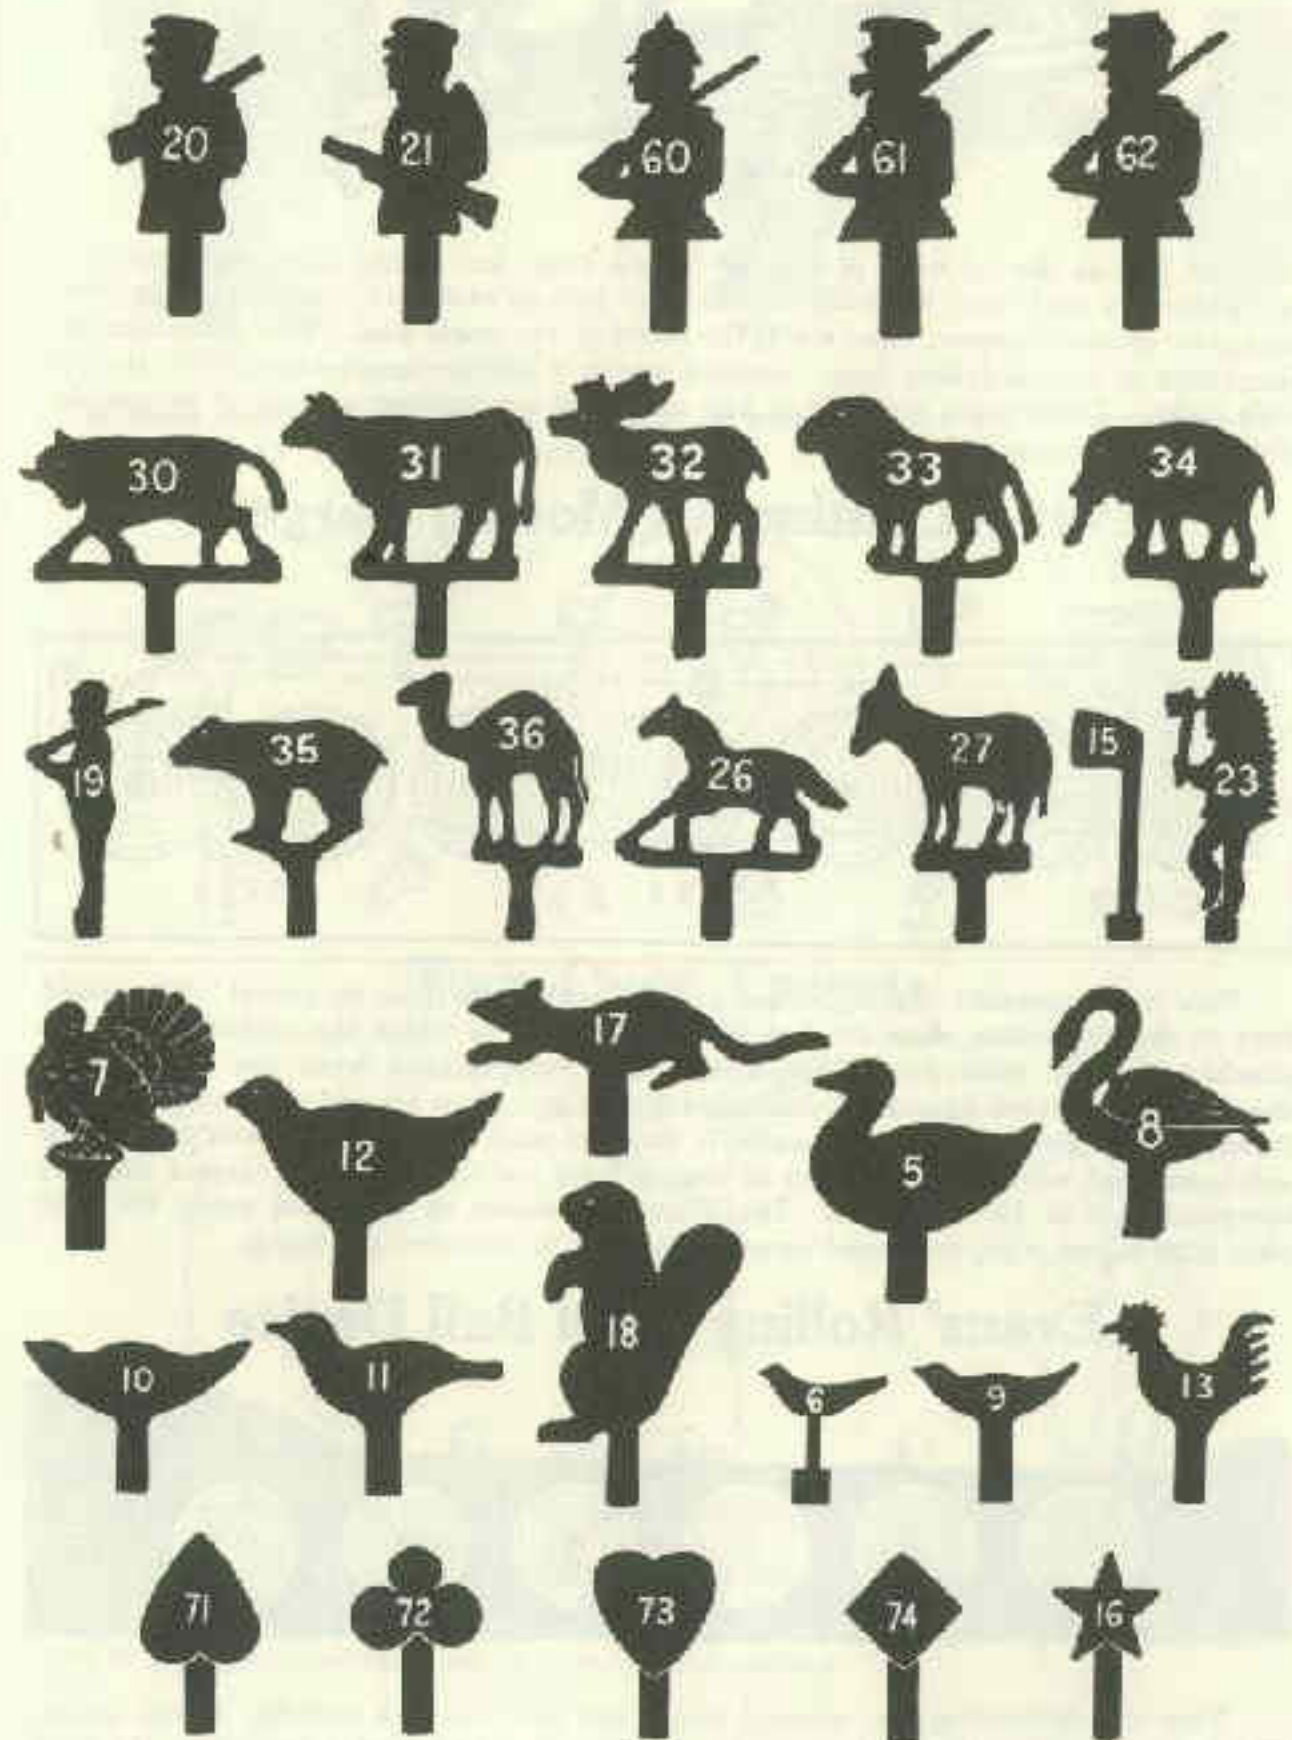

Above this in the center is a revolving Wheel target with four round targets with large bullseyes and two Rabbits and two Dogs on the outer edge that disappear when hit, and automatically reset. This target has a loud gong behind it. On either side of the revolving Wheel is a pull-up rack of No. 18 Squirrels, above this are two short rows of No. 42 Spinners, then a stationary pull-up rack of No. 6 Birds followed by a stationary row of No. 16 Stars, all reset by a cord from the counter.

At each end of the moving rows are small blinds with two No. 100 Moon Face targets and two No. 101 Eagles. On each side of the Gallery is a 2-foot side wing with a rack of No. 127 and No. 128 dropping Birds and a revolving Rabbit on each. These Birds drop to the floor when hit and are very popular with the shooter.

This Gallery is 10 feet high, 14 feet wide, shipping weight 3,800 pounds.

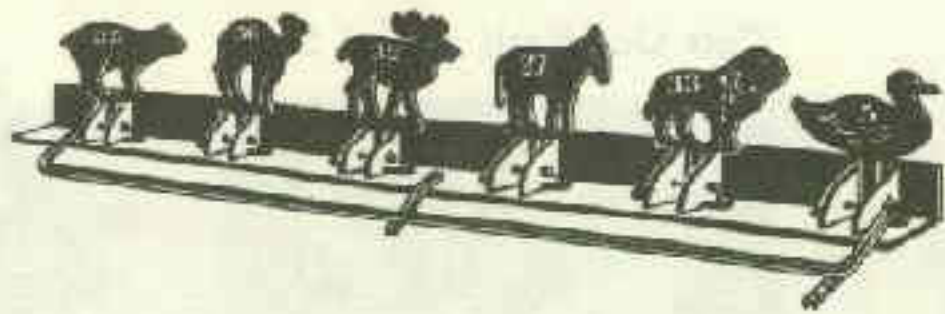

Malleable Iron Moving and Stationary Targets

Cuts One-Sixth Actual Size

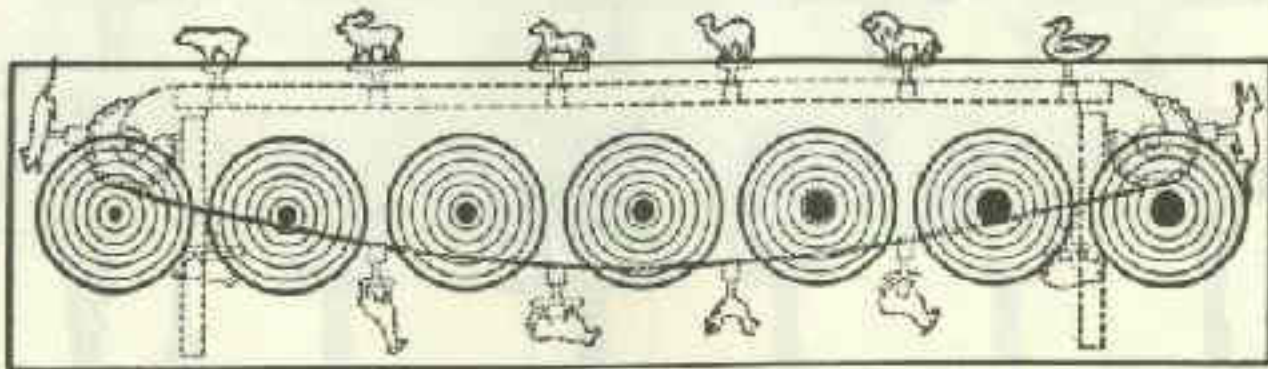

Order by Number and Name.

Evans' Pull-up Racks

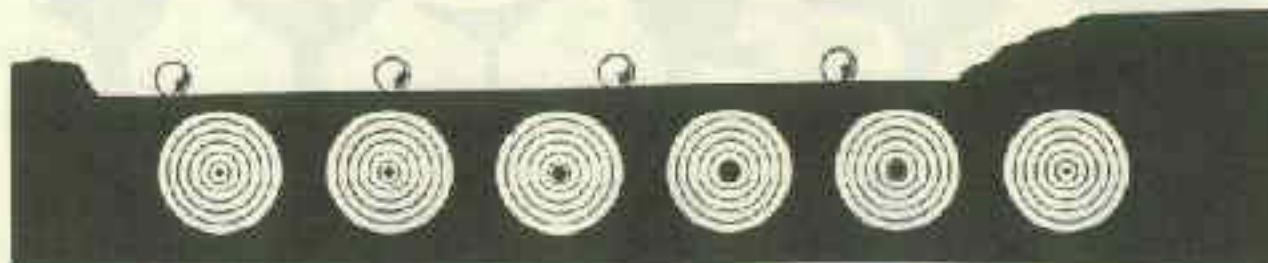

Our Pull-up Racks, built of $\frac{3}{4} \times \frac{3}{4}$ " Angle Iron, are strong and substantial, and operate with a cord from the front counter. All pull-up racks are equipped with a common iron cushion bumper, mounted $\frac{3}{8}$ " in front of the angle iron. This eliminates the annoyance of figures falling from vibration and is a distinct improvement over the old style racks. These racks are built in any size, with any number or kind of targets desired as listed on page 22.

Evans' Continuous Moving Targets

This is a universally popular target and one that never loses its appeal. The dotted lines in the illustration show the link boxes and chain to which the animal figures are attached and the method of disappearance and reappearance from the view of the shooter. The various figures fall backward from sight when hit and automatically right themselves on their return. This outfit is made of steel and malleable iron throughout and is supplied with any assortment of targets from our list of moving targets with the exception of Nos. 25, 23 and 29. The illustration shows an eight-foot outfit, the steel plate is 24 inches high, the round targets 12 inches in diameter, No. 150.

Evans' Rolling Steel Ball Device

This is a fascinating and unusual target and one that is a sure-fire money getter. The balls run along the track at varying speeds, dropping into a trough at the back when hit and automatically carried up to the track and released again. The entire mechanism is concealed by a heavy steel plate bearing six 18-inch round targets with bullseyes of various sizes with loud gongs. As illustrated the outfit is 8 feet in length.

DECORATIVE TARGETS

101

102

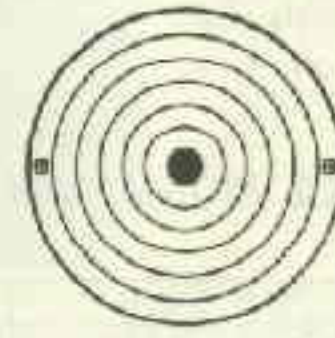

103

● These targets are cast in relief, are distinctly ornamental and add to the appearance of any Gallery. Always popular with the public.

106

160

200

Turn-Over Targets

141

142

143

These targets are made of grey iron, cast in relief and a real money maker on any Gallery. The figures turn a complete somersault each time the bullseye is hit and automatically reset themselves. Targets are mounted on a steel plate 16x20 in. and are operated by a weight, making about 20 turns on one winding.

NOVELTY TARGETS

Howling Tom

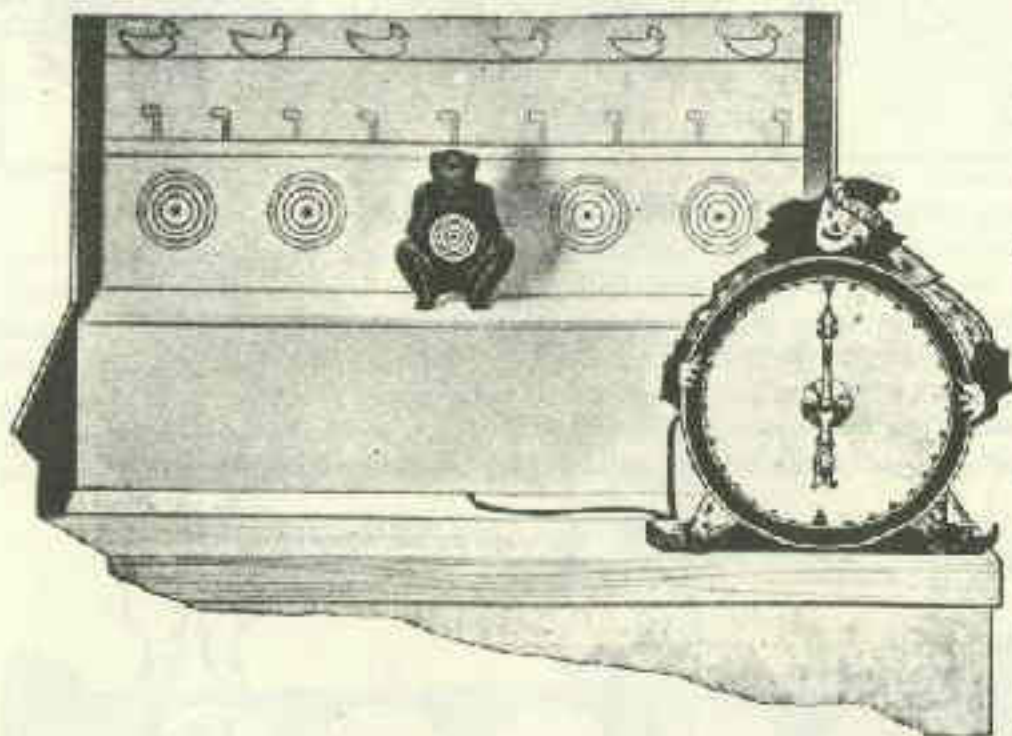

Pep up your Gallery with a new Novelty Target and watch the receipts climb. Howling Tom with an automatic, electric siren voice is a winner and the Great Clown with an automatic blinking eye is a real hit, players endeavoring to shoot out the lighted eye. When successful the other eye automatically lights, gas illumination, very simple and trouble proof.

Great Clown

LUCKY MONKEY TARGET

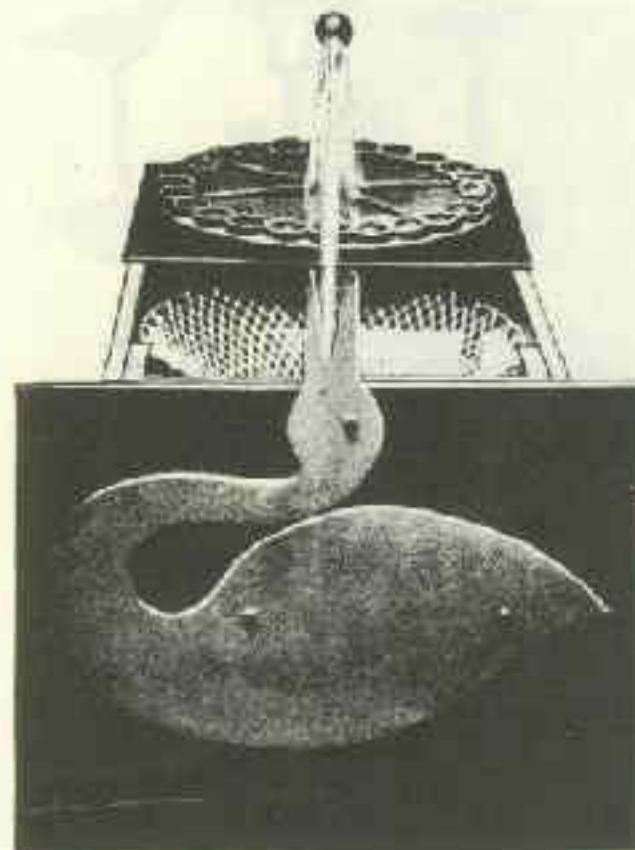

The Lucky Monkey Target provides a practical method of offering premiums for expert marksmanship as well as stimulating play and actually creating new business.

This novelty Target consists of a 14 inch iron Monkey Target with 5 inch bullseye, equipped with a foolproof switch operating the spinner.

The Prize Arrangement in the form of a 20 inch clown is placed on the counter or mounted on a bracket on the side wall. The circular face is divided into 50 spaces with a motor driven spinner operating direct from the switch in the Monkey Target.

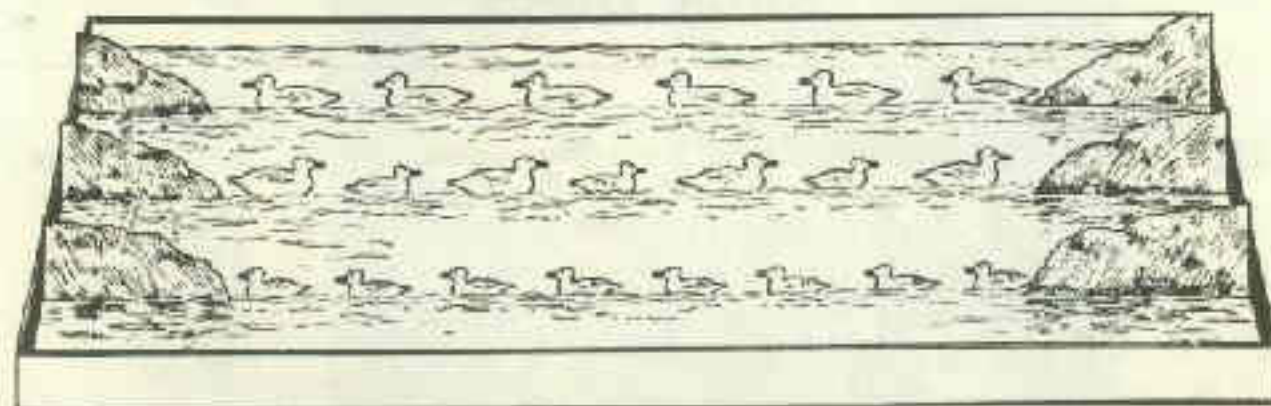

The Lucky Monkey Target is entirely automatic, requires no care or attention and will last a life time.

Evans' Water Ball Fountain

This is the most unusual and fascinating target ever produced and one that never ceases to attract the marksman. The magazine holds 23 balls and is made of iron, mounted on a steel plate, made to stand continuous use and will not get out of order. The water jet is obtained by connection with the city water supply and operation is from the counter. The Swan front is optional, fountains may be had with or without this feature as desired. This front is mounted on a steel plate and securely bolted to the metal frame supporting the magazine mechanism and water jet, which is supplied with each outfit.

Evans' Automatic Duck Pond

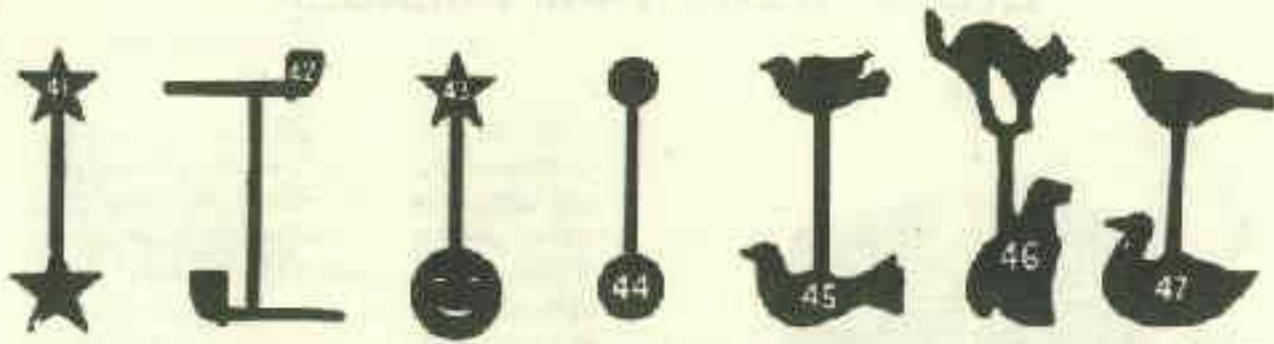

A most fascinating and popular Target on any Shooting Gallery and one that is a continuous success wherever used. Our specially designed hollow back Ducks as used on these outfits have every appearance of a live Duck. When hit they disappear under the water with a loud splash, the water going straight up and falling back into the pond. All mechanism is entirely below the water, nothing is exposed and motion is provided by a shaft connected with the Gallery.

We supply the Ducks and all mechanical equipment, including steel blinds at the end of each row to conceal the Ducks as they drop from sight and reappear again; also a steel plate to protect the back of the tank. We do NOT furnish the tank but supply a diagram so that it can be easily constructed. The illustration shows a three-row, ten-foot outfit, the ducks are made right and left in two sizes. We also supply two-row outfits with Ducks moving in opposite directions. Longer outfits built to order, price on application.

MALLEABLE IRON SPINNERS

Cuts One-eighth Actual Size

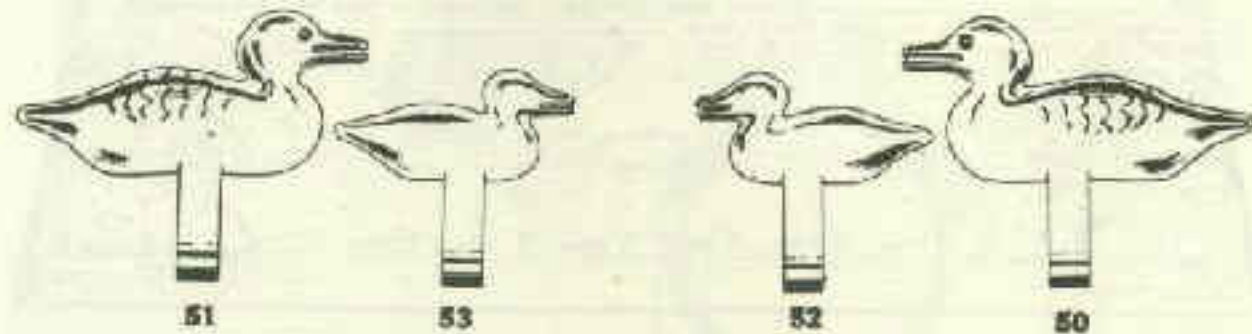

● These Spinners are the best grade malleable iron castings, drilled to be mounted on a 1/8 inch round rod. When hit they spin rapidly, making several revolutions and reset themselves as they come to rest.

MALLEABLE IRON FIGURES FOR REVOLVING TARGETS

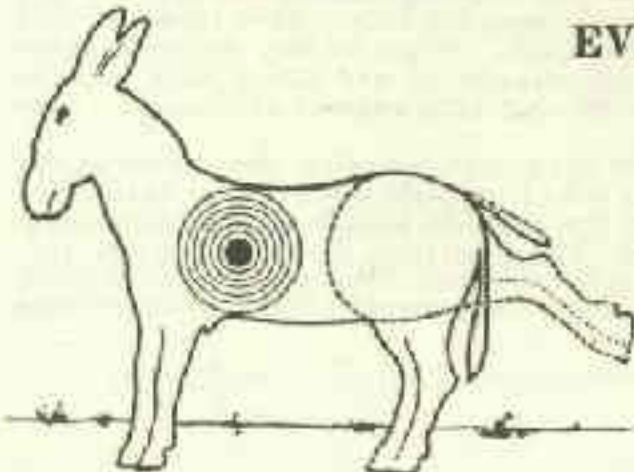

● These targets are specially designed for use on the Revolving Targets above and are not adaptable for other purposes. Nos. 25 and 29 are 11 inches long. No. 28 is 8 1/2 inches long.

Water Ducks

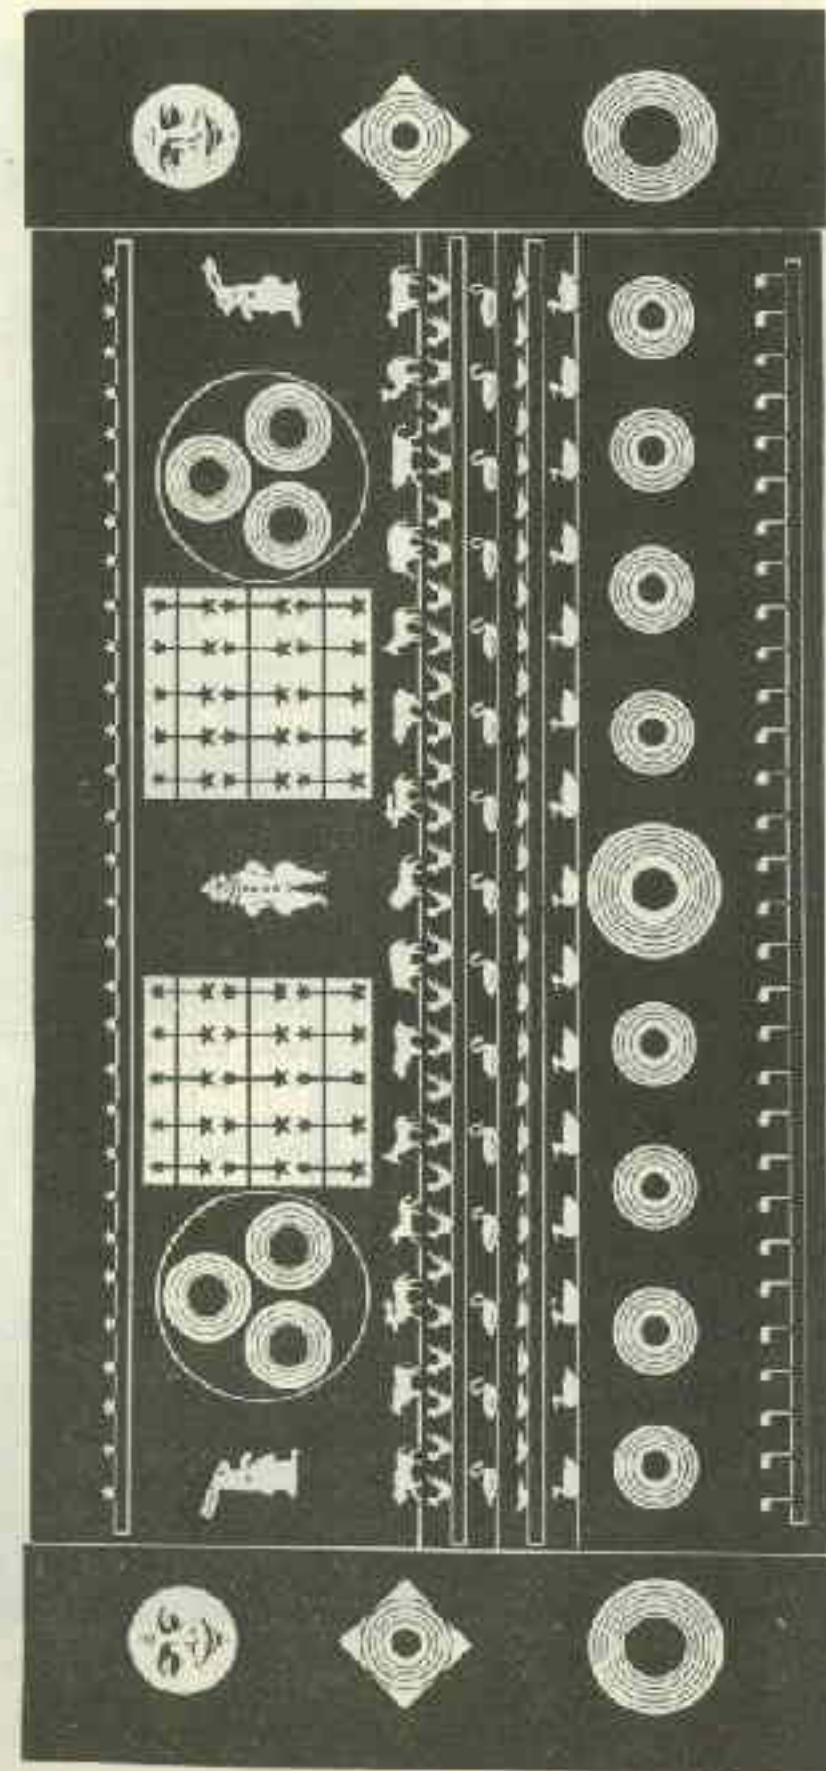

These Ducks are specially designed and cast from malleable iron in two sizes, right or left. The Ducks are made with hollow back, making them appear very lifelike as well as controlling the splash and preventing it from falling outside the pond.

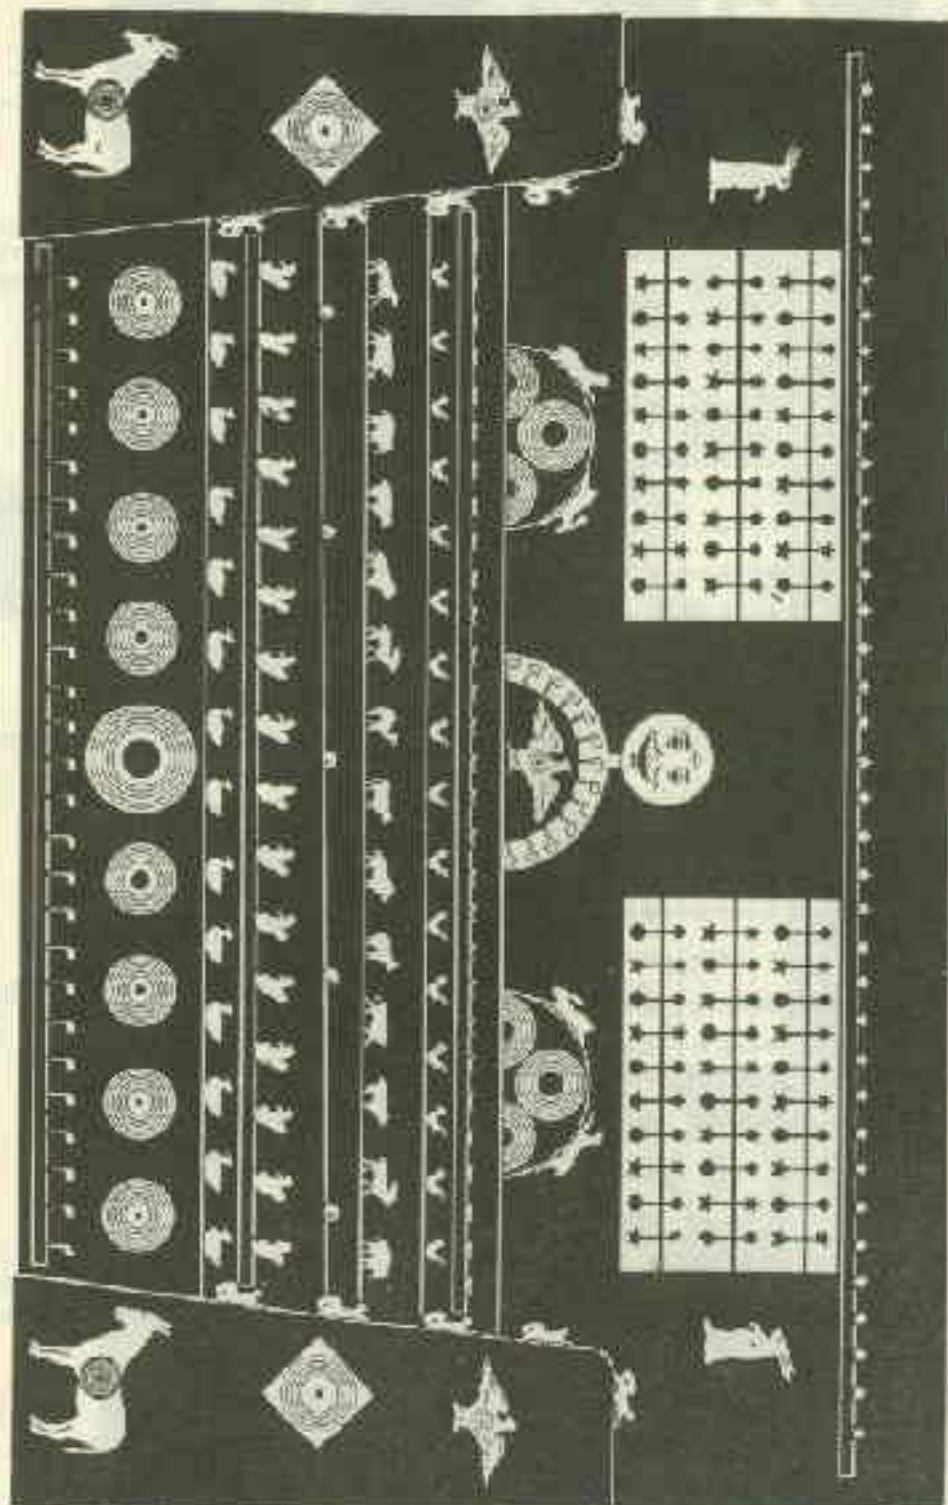

EVANS' KICKING MULE

This is an amusing and interesting shot as everyone likes to see the mule kick. Made of malleable iron with a 1/8 inch bullseye. When bullseye is hit the mule automatically kicks, reset from the counter, made right or left handed. This target is 22 inches high and 22 inches long, shipping weight, 90 pounds.

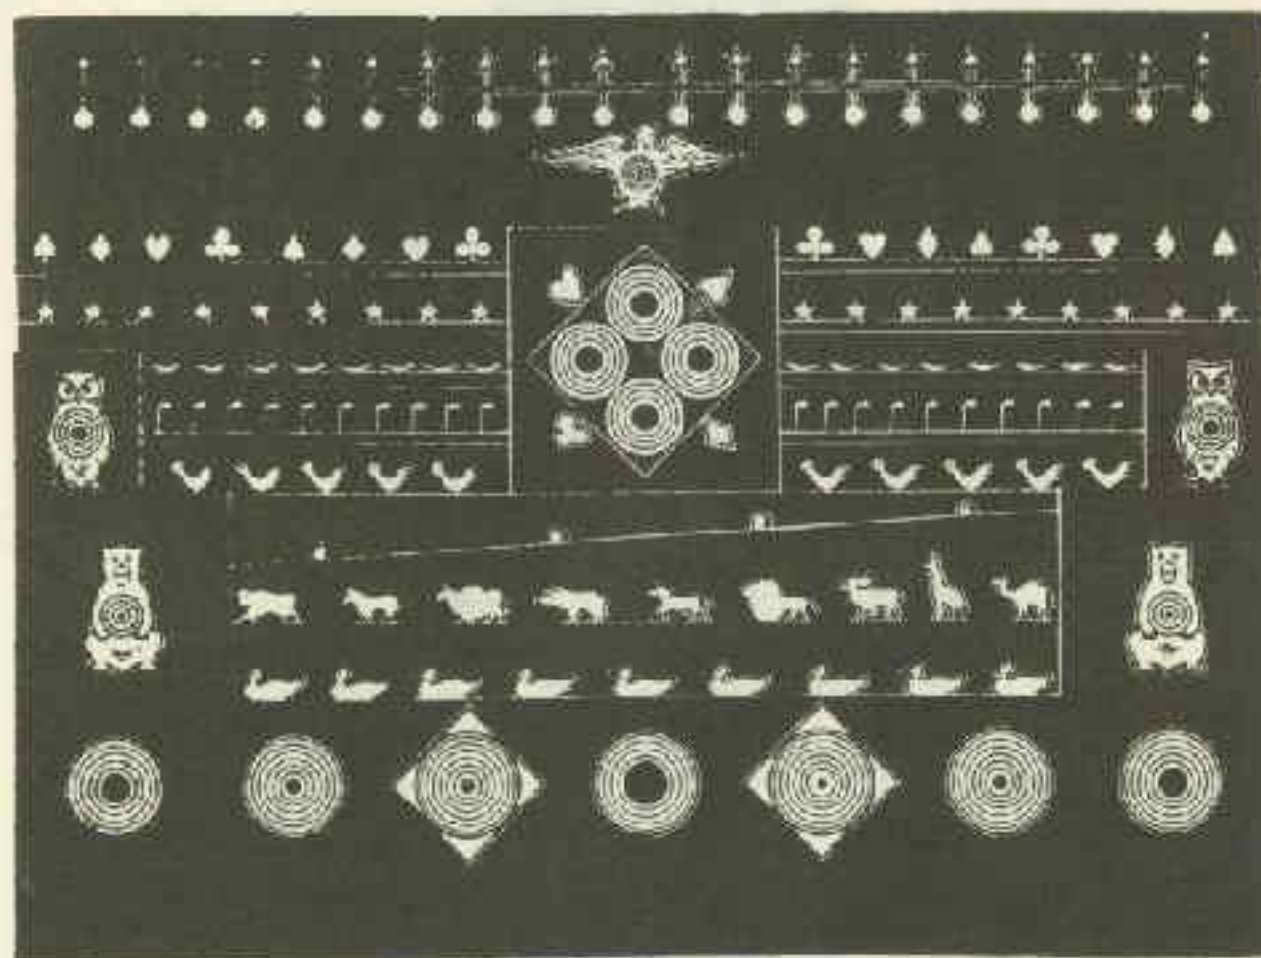

GALLERY B---9 ft. High, 20 ft. Wide

GALLERY R---12 1/2 ft. High, 20 ft. Wide

GALLERY O--9 ft. High, 12 ft Wide

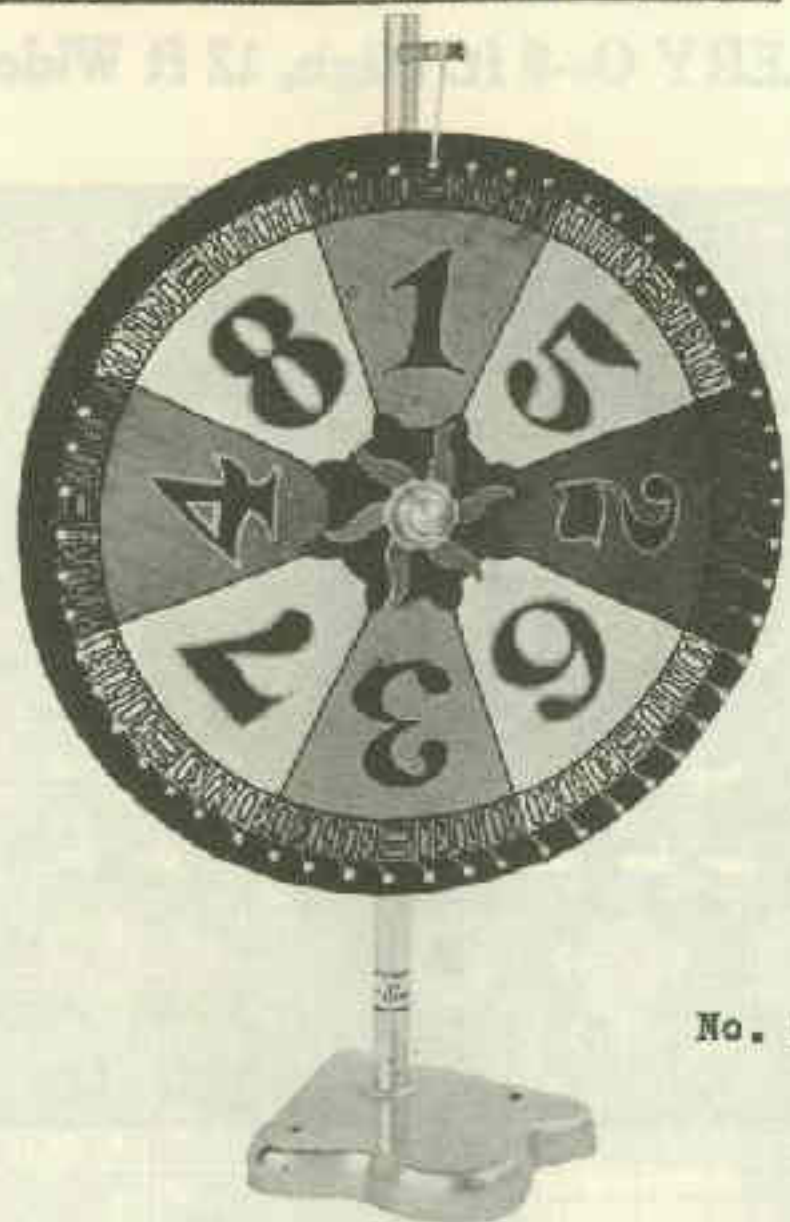

Evans' Gallery O

This is a very attractive as well as a popular Gallery and has an abundance of objects to shoot at, there being 112 targets in sight at all times. At the bottom are five 12-inch Round and two 12-inch Square Steel Targets with gongs and at each side are an Owl and a Monkey decorative target with gongs. Above the steel targets is a row of continuously moving No. 5 Ducks, automatically reset, next a stationary row of mixed Animals, reset from the counter and above this our Rolling Steel Ball device.

Above this at each side is a moving row of No. 13 Roosters, automatically reset, then a stationary row of malleable iron Pipes, a stationary row of No. 6 Birds, a stationary row of No. 16 Stars and a stationary row of Playing Card Emblems; all reset from the counter. In the center, between these targets, is a large steel square with four revolving targets with large bullseyes and loud gongs. On the edge of the square are Playing Card Emblems, automatically reset, and above this is a large decorative Eagle, which has a loud gong. Across the top is a row of No. 43 Moon and Star Spinners which spin around the rod when hit.

This Gallery is 9 feet high, 12 feet wide and 40 inches deep. Shipping weight 2,600 pounds.

No. 16WA

The above illustrated wheel is 16 inches in diameter, perfectly balanced, mounted on a portable machined Aluminum stand, with a star nut, Beautifully Screened, pressed fit indicator holder, and revolves freely on a machined shaft with an 'Oilite' brass bearing. The stand is highly polished and the pins are Stainless Steel. Comes with a 12 x 43 inch laydown.

May be had in the following combinations:

1. P.O. 8 Number Wheel
2. Chuck-A-Luck Wheel
3. Baseball Wheel
4. Race Horse Wheel.

Other combinations may be had upon request according to your diagram at a slight additional cost.

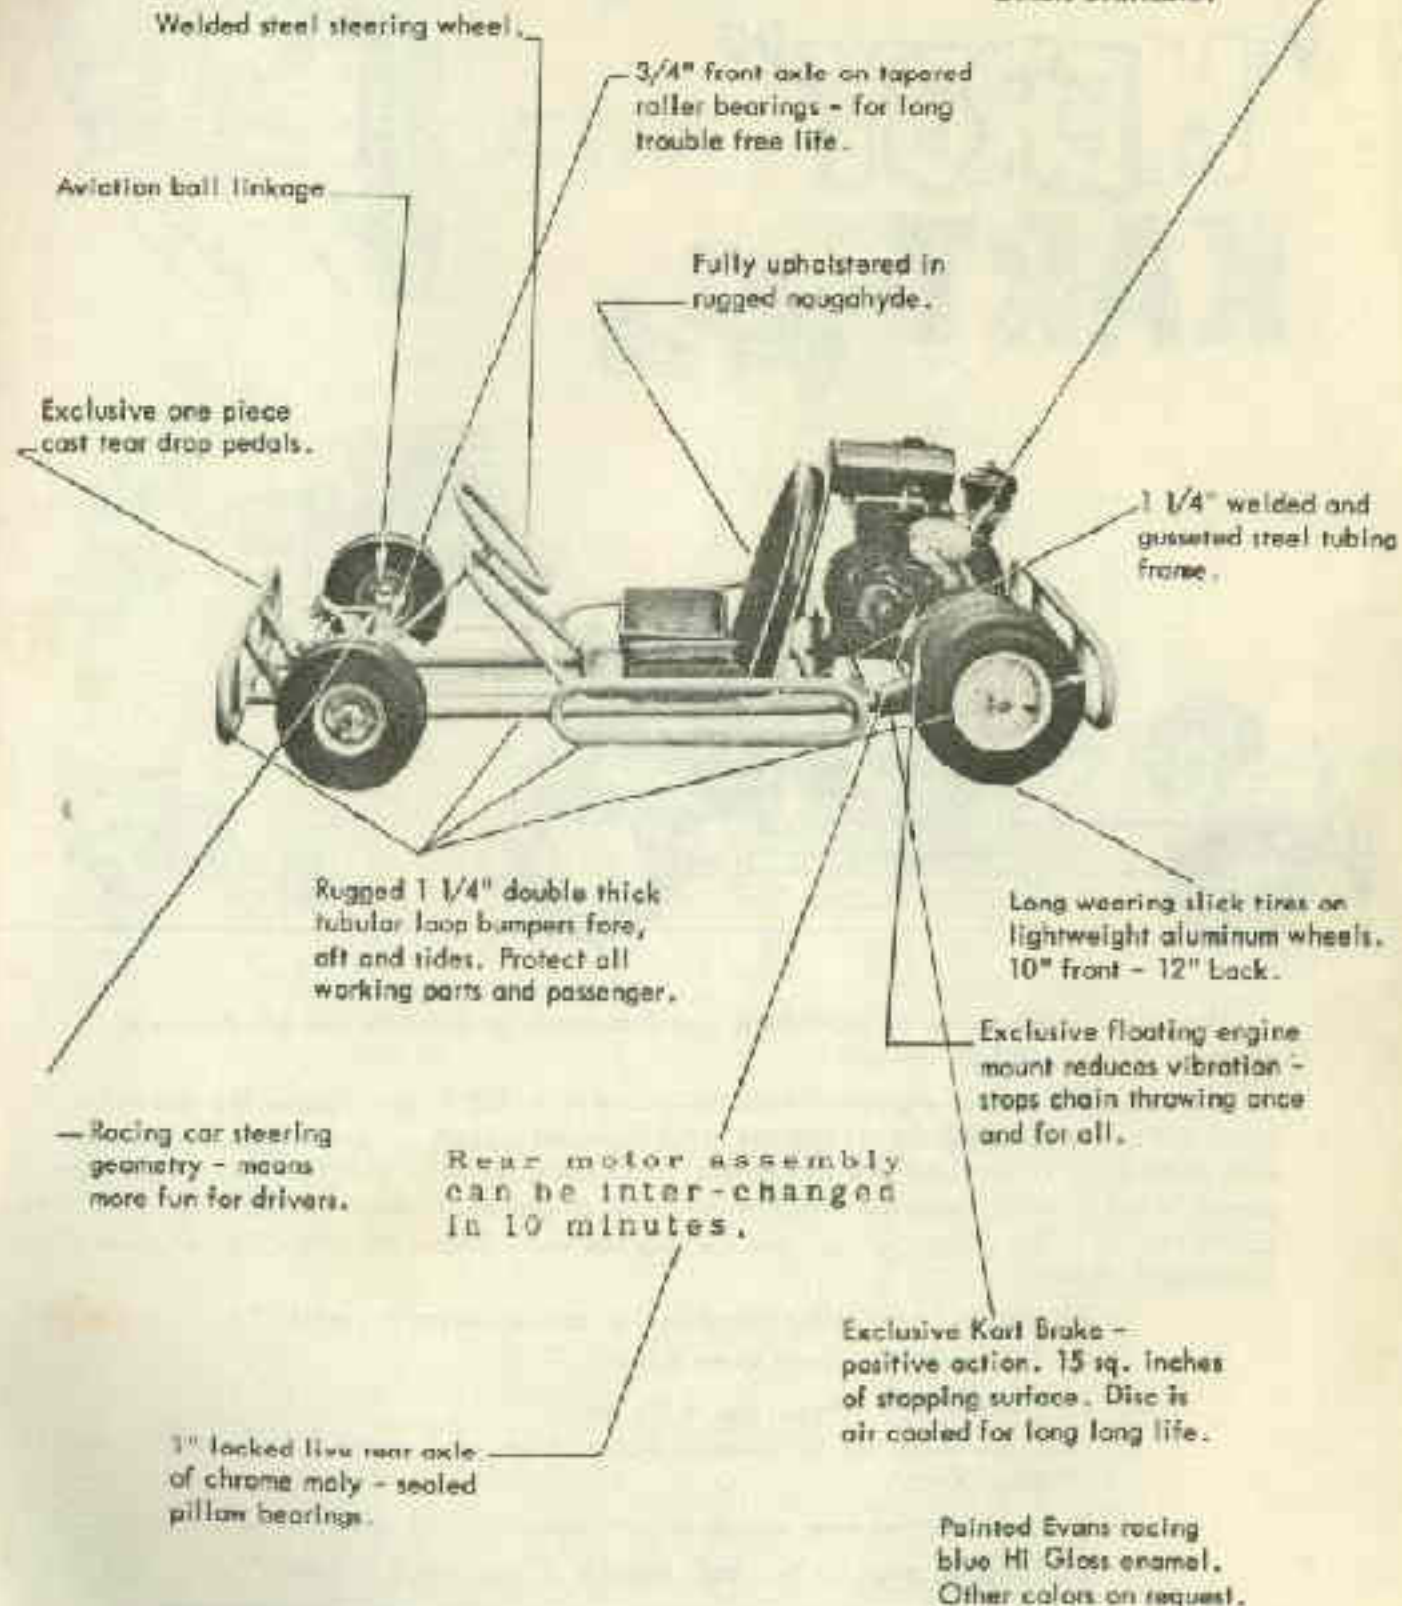

When ordering, please specify type of wheel desired.

EVANS 'HERBY' KART

EVANS "HERBY KART" FEATURES

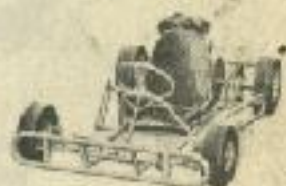

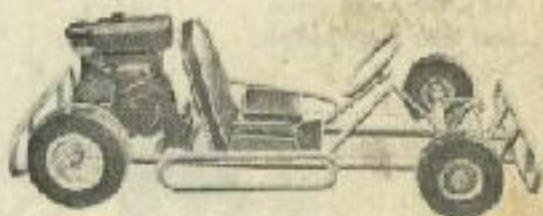

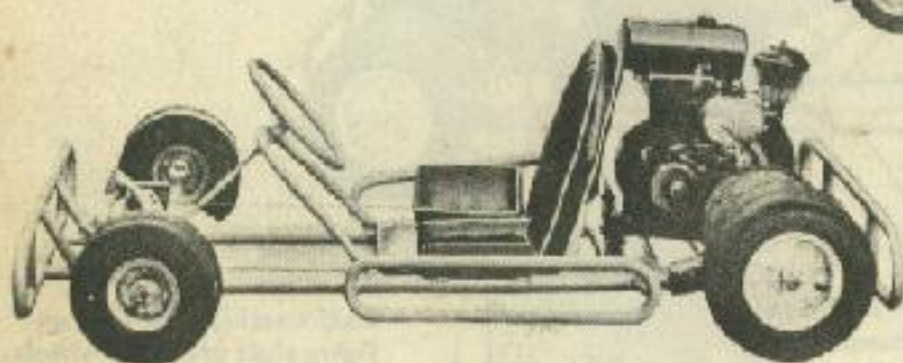

Dependable, governed
Kohler 4 cycle engine.
Others available.

ENGINEERED EXCLUSIVELY FOR RENTAL TRACK OPERATIONS

"HERBY" KART

f.o.b. factory
quantity discounts

Here is a rugged, reliable, dependable kart that stands up under the use and abuse you can expect from rental operations.

The "Herby" Kart was engineered from the ground up to last longer, require less maintenance, and put larger profit dollars into the concessionaires pocket. . . There is no compromise with quality . . . Every part was chosen with rental track operation in mind. Pilot models were placed in actual rental track use with instructions to deliberately "wear them out" . . . "run them constantly" . . . "bang them up" . . . and the response was phenomenal. Here are but a few of the enthusiastic reports:

- " We couldn't wear it out - send us five more whatever the price. "
- " Used it constantly, never threw a chain. "
- " Only had to stop it to put gas in the tank. "
- " Teen-ager deliberately rammed a wall - chipped two bricks - no damage to "Herby" Kart. "
- " Finest brakes I've ever seen on a Kart, makes it truly safe to drive. "
- " Comfortable, even for me, and I stand 6' 2" and weigh 265 lbs. "

To Our Patrons

In presenting this catalog to our patrons, we have listed and described only a small part of our regular line. If your requirements are not carried in this catalog, we invite you to write us, describing fully what you are in need of and we will be pleased to quote prices and delivery dates on such merchandise.

Our stocks are ample at the beginning of the season to assure immediate delivery. At such a time our inventory begins to dwindle and the late orders become rush shipments. Therefore, the 'First Come First Served' basis has preference.

To assure yourself a definite delivery date, place your order early with a small deposit and you may use our 'Lay-Away' plan, where the goods will be aside to await your order for the shipping date. Succeeding payments may be for as little as \$10.00 per month. When final payment is made, we will ship in accordance with your instructions. In this manner you develop a sense of security with your booking dates with Carnivals, Fairs and Shows.
