ELECTRIC DICE MAGNET

This is used by nearly all professional magicians for performing the most wonderful tricks. One to five dice can be used with the trick. Magnet is in a plate form which is fastened up against the under side of the table or floor, or any place you choose to roll the dice. The operator is furnished with a floor push button that can be operated with the foot, allowing the hands to be free at all times. When you want a big hand to show up, press the button at the same time you throw the dice out, and they are sure to come up the points which they are fixed for, and when the button is not pressed the dice are just the same as any ordinary square dice.

The dice appear perfectly natural, and nothing can be detected. The magnet will operate through any ordinary thickness of wood to 1½ inches, cloth, paper or glass. No experience required to operate it.
